RE:

Recommendations on the Governor's Proposed Biennial Budget, LD 210

On Wednesday, February 27th and Wednesday, March 5th the Joint Standing Committee on Judiciary met to review the items within the Governor's Proposed Biennial Budget (LD 210) pertaining to the agencies under the Judiciary Committee's jurisdiction. Members who were unable to attend all or part of the work sessions were provided an opportunity to cast their votes after each meeting.

As is reflected in the vote totals reported on the attached report-back worksheet and as is described further in this memorandum:

- With two exceptions, either a majority or all of the voting members of the Judiciary Committee recommends acceptance the initiatives proposed by the Governor, either as originally proposed or with specific amendments to those initiatives described in more detail below.
- In addition, a majority of the voting members of the Judiciary Committee support adding new initiatives to the biennial budget supporting both civil legal services in the State for individuals who are unable to afford an attorney in civil proceedings involving their safety or critical aspects of their financial wellbeing as well as a specific set of new initiatives for the Maine Commission on Public Defense Services (PDS) to help fulfill the State's constitutional and statutory obligations to provide counsel to individuals who are unable to afford an attorney in certain court proceedings.
- Although we were not specifically asked to weigh in on this topic, a majority of the Judiciary
 Committee further recommends increasing the funding provided in the biennial budget to offset
 current and anticipated federal funding for crime victim assistance programs under the Victims of
 Crime Act of 1984

Each of these topics is addressed in more detail below.

I. Governor's Proposed Biennial Budget for Departments and Agencies within the Judiciary Committee's Jurisdiction

Department of the Attorney General — OFPR Worksheet pages 1-25 & page 70

Either a majority or all of the voting members the Judiciary Committee recommends acceptance of the initiatives within the Governor's proposed biennial budget related to the Department of the Attorney

General, including Language Part X, with the members of the committee (if any) who voted against those initiatives recommending that those initiatives be taken out of the biennial budget, except as described below.

New AAG to support DMR. Ref. #589 (p.4). Vote: 6 (IN) - 5 (OUT) - 1 (amend so FY27 only) Six members of the committee voted in favor of establishing this new position as proposed by the Governor. Of the six members voting against the initiative, one member (Sinclair) voted to amend the initiative to begin the funding for this new position in Fiscal Year 26-27, while five members (Haggan, Poirier, Henderson, Caruso and Babin) voted against including this new position in the biennial budget. Finally, one member (Pugh) abstained from voting on this initiative.

Statewide OIT surcharge: OAG Administration. Ref. #595 (p.6). Vote: 8 (amend amount) – 5 (OUT) Attorney General Aaron Frey informed the Judiciary Committee at its work session that the percentage increase in the surcharge from the Office of Information Technology assessed to the "Administration – Attorney General" portion of the budget is much larger than the amount the Attorney General would have expected, but he has had difficulty obtaining specifics about why the increase is so large. In addition, it appears that this initiative includes \$172,687 for the creation of a system for traffic stop data collection that should be excluded because the Attorney General plans to pay for this project with grant funding. In light of this information, an 8-member majority of the committee voted in favor of amending the General Fund appropriation in this initiative to \$350,000 per fiscal year, to align more closely with the surcharge the Attorney General would have expected to see in this initiative. A 5-member minority of the committee (Haggan, Poirier, Henderson, Caruso and Babin) voted against including this initiative in the biennial budget.

Statewide OIT surcharge: Human Services Div. Ref. #621 (p.19). Vote: 8(OUT*) – 2(IN*) *w/caveat Given the uncertainty raised regarding the OIT surcharge described above, the members of the committee unanimously recommend that the Appropriations and Financial Affairs Committee examine the surcharge in Ref. #621 to ensure that the additional charges have been appropriately assigned to the Human Services Division of the Office of the Attorney General. Given this uncertainty, 8 members of the committee voted against including this initiative in the budget, while 2 members (Carney and Kuhn) voted to include this initiative in the budget although they agreed the number deserves scrutiny.

Language Part X (p. 70). Vote: 12 (amend language) – 1 (OUT).

Of the committee members voting, one member (Henderson) voted against Language Part X while 12 members voted in favor of the following replacement language for Language Part X.

Sec. X-1. 22 MRSA §3024, 3rd ¶, is amended to read:

The Chief Medical Examiner may, in an unusual circumstance as determined by the Chief Medical Examiner, prescribe a special fee for the service of a medical examiner or medicolegal death investigator or for any consultant service the Chief Medical Examiner determines necessary. The special fees prescribed by the Chief Medical Examiner under this paragraph may not include fees for standard blood, urine or vitreous collections.

Maine Human Rights Commission — OFPR Worksheet pages 26-29

A majority of the voting members the Judiciary Committee recommends acceptance of the initiatives within the Governor's proposed biennial budget related to the Maine Human Rights Commission (MHRC), except as described below, with the members of the committee who voted against those initiatives recommending that those initiatives be taken out of the biennial budget.

MHRC operational needs. Ref. #1567 (p.27) Vote: 8 (amend amount) – 5 (OUT)

Based on testimony received from the MHRC that the funding amounts in this initiative included calculation errors, an 8-member majority of the committee voted in favor of amending this initiative to include one-time funding of \$25,369 funding in Fiscal Year 2025-26, without no funding in Fiscal

Year 2026-27. A 5-member minority of the committee (Haggan, Poirier, Henderson, Caruso and Babin) voted against including this initiative in the biennial budget.

Judicial Branch — OFPR Worksheet pages 32-59, 69 and 71

Either a majority or all of the voting members the Judiciary Committee recommends acceptance of the initiatives within the Governor's proposed biennial budget related to the Judicial Branch, including Language Part AAAA and Part FFFF, with the members of the committee (if any) who voted against those initiatives recommending that those initiatives be taken out of the biennial budget, except as described below.

- 2 limited-period Collections Clerks. Ref. #2363 (p. 34). Vote: 7 (OUT) 6 (IN)
 Of the committee members voting, 7 members voted against including these positions in the budget, while 6 members (Carney, Kuhn, Talbot Ross, O'Halloran, Lee and Sato) voted to include these limited-period collections clerk positions in the budget.
- 2 Courtroom Technician positions. Ref. #2378 (p.39). Vote: 8 (IN) 3 (amend to 1))
 Of the committee members voting, 8 members voted to include both positions in the budget while 3 members (Henderson, Lee and Babin) voted to support funding of only one courtroom technician position in the budget.
- 4 Assistant Clerks. Ref. #2380 (p. 40). Vote: 6 (IN) 3 (amend to 3) 3 (amend to 2) 1 (OUT) Of the committee members voting, 6 members voted to include all of these positions in the budget while 3 members (Lee, Sinclair and Sato) voted to include only 3 of these positions and 3 members (Henderson, Caruso and Babin) voted to include only one of these positions in the budget. Finally, one member (Haggan) voted against including any of these assistant clerk positions in the budget.
- 5 Electronic Filing Specialists & 1 Electronic Filing Supervisor. Ref. #2381 (p.41). Vote: 7 (IN) 4 (amend to 3 specialists and 1 supervisor) 1 (OUT)

 Of the committee members voting, 7 members voted to include all of these positions in the budget while 4 members (Handerson, Singlein Carries and Rabin) voted to include only 3 Electronic Filing

while 4 members (Henderson, Sinclair, Caruso and Babin) voted to include only 3 Electronic Filing Specialist positions and one Electronic Filing Supervisor position in the budget. Finally, one member (Haggan) voted against including any of these positions in the budget.

- 5 Deputy Marshal positions. Ref. #2395 (p. 46). Vote: 8 (IN) 4 (amend to 3)
 Of the committee members voting, 8 members voted to include all 5 positions in the budget while 4 members (Henderson, Sinclair, Caruso and Babin) voted to support funding of only 3 of these deputy marshal positions in the budget.
- 3 Service Center positions. Ref. #2396 (p. 46). Vote: 10 (IN) 1 (amend. to 2) 1 (amend. to 1) Of the committee members voting, 10 members voted to include all 3 positions in the budget, while one member (Caruso) voted to support funding of only 2 of these positions and one member (Henderson) voted to support funding of only one of these service center positions in the budget.
- 2 Corporal positions. Ref. #2397 (p.47). Vote: 8 (amend pay) 2 (amend pay but only for one) 1(IN) Of the committee members voting, 8 members voted to include both corporal positions in the budget, but would amend the initiative to add \$12,000 in appropriations in each year of the biennium to reflect the new pay rate for these positions that appears in Ref. #2384. By contrast, 2 members (Henderson and Caruso) voted to support including only one corporal position at the increased pay rate reflected in Ref. #2384. One member (Haggan) supported including both corporal positions in the budget at the pay rate proposed by the Governor.

Volume increase for justices of the peace. Ref. #2413 (p. 53). Vote: 9 (amend pay) – 2 (IN)
Of the committee members voting, 9 members voted to include an amended version of this initiative, provides funding to cover the volume increase in documents signed by justices of the peace, amended

to include \$17,500 in additional appropriations in each fiscal year of the biennium to reflect the increased pay for justices of the peace that appears in Ref. #2392. By contrast, 2 members (Henderson and Caruso) voted to include the initiative in the budget as written.

Volume increase for GALs, interpreters and examiners. Ref. #2414 (p. 54). Vote 9 (amend to add language part) – 3 (amend to make one-time funding and to add language part).

Of the committee members voting, 9 members voted in favor of the initiative as an ongoing initiative to increase the baseline by \$490,000, while 3 members (Poirier, Caruso, Babin) voted to amend the initiative to provide only a one-time increase to the baseline of \$490,000 for each of the two fiscal years in the biennium. However, all voting members of the committee unanimously support adding the following language to the biennial budget to address the potential that the increased guardian ad litem, interpreter, and mental health examiner costs may far exceed the \$490,000 per year provided in this initiative:

Transfer of Personal Services balances to All Other; Judicial Department, Courts - Supreme, Superior and District; fiscal year 2025-26.

Notwithstanding any provision of law to the contrary, for fiscal year 2025-26 only, the Judicial Department is authorized to transfer up to \$750,000 of available balances of appropriations in the Personal Services line category in the Courts - Supreme, Superior and District program, after all financial commitments for salary, benefit and other obligations have been made, to the All Other line category in order to fund temporary clerk services, Marshal services contracts, Guardian ad litem, Interpreters, and Mental Health services. These amounts may be transferred by financial order the recommendation of the State Budget Officer and approval of the Governor. These transfers are not considered adjustments to appropriations.

Transfer of Personal Services balances to All Other; Judicial Department, Courts - Supreme, Superior and District; fiscal year 2026-27.

Notwithstanding any provision of law to the contrary, for fiscal year 2026-27 only, the Judicial Department is authorized to transfer up to \$750,000 of available balances of appropriations in the Personal Services line category in the Courts - Supreme, Superior and District program, after all financial commitments for salary, benefit and other obligations have been made, to the All Other line category in order to fund temporary clerk services, Marshal services contracts, Guardian ad litem, Interpreters, and Mental Health services. These amounts may be transferred by financial order the recommendation of the State Budget Officer and approval of the Governor. These transfers are not considered adjustments to appropriations.

- 2 limited-period CASA Legal Service Advisors. Ref. #2416 (p. 54). Vote: 8 (IN) 5 (amend to one) Of the committee members voting, 8 members voted to include both positions in the budget while 5 members (Haggan, Poirier, Henderson, Caruso and Babin) voted to support funding of only one of these Court Appointed Special Advocate (CASA) Legal Services Advisor positions in the budget.
- 5 limited-period Law Clerk positions. Ref. #2419 & #2420 (p.55). Vote: 8 (IN) 5 (amend to 3) Of the committee members voting, 8 members voted to include all of these positions in the budget while 5 members (Haggan, Poirier, Henderson, Caruso and Babin) voted to support funding of only 3 of these limited-period law clerk positions in the budget.
- 2 limited-period Assistant Clerk positions. Ref. #2424 (p.57). Vote: 8 (IN) 5 (amend to one)
 Of the committee members voting, 8 members voted to include both positions in the budget while
 5 members (Haggan, Poirier, Henderson, Caruso and Babin) voted to support funding of only one of
 these limited-period assistant clerk positions in the budget.

Maine Civil Legal Services Fund - OFPR Worksheet page 60. Vote: 8 (FOR) - 5 (FOR as amended) As we all learned during the joint public hearing on February 11, because there is no right to counsel in civil cases, each year thousands of low-income Mainers face life-altering civil legal issues — including eviction, domestic violence, elder abuse, denial of veterans' benefits, etc. — without legal representation. The lack of legal representation not only jeopardizes these Mainers' ability to obtain the relief they are entitled to receive in Maine courts, but also leads to inefficiencies in the court system as unrepresented litigants attempt to navigate the complex procedural and evidentiary rules. In recognition of the need to reduce the portion of unrepresented litigants in the most important of these cases, the Maine Legislature established the Maine Civil Legal Services Fund in 4 M.R.S. §18-A "to support civil legal services to persons who otherwise are not able to pay for these services." §18-A(1). Money in this fund may only be "disbursed to legal services providers to support the provision of free civil legal services to low-income or needy people or the needly elderly in this State." §18-A(1)(B). This fund receives both general fund appropriations and a portion of the fees imposed on litigants in civil cases as described in §18-A(3-A). Unfortunately, the fee revenue available to the fund has decreased over time; thus, while the baseline budget estimates that up to \$2,500,346 in fee revenue will be available each year, recent experience demonstrates that only approximately \$1,200,000 has been available in fee revenue each year.

Through Public Law 2023, chapter 412, the Legislature provided a one-time allocation of \$4,000,000 to the Maine Civil Legal Services Fund. The civil legal services providers in the State wisely choose to treat this distribution as a \$2,000,000 increase above the baseline appropriation for each of the 2 fiscal years of the biennium. This approach allowed the funding to sustain the hiring of additional legal aid attorneys during the biennium, bringing Maine up to a ratio of approximately 3 legal aid attorneys per 10,000 people in the State living below 200% of the poverty line. According to the National Justice Index, to ensure that low-income persons facing the most dire civil legal issues have the representation they need, states should have a ratio of 10 legal aid attorneys per 10,000 people in the State living below 200% of the poverty line. However, if the \$2,000,000 per year investment from Public Law 2023, chapter 412 is not sustained, current programs and services will be cut, resulting in an estimated ratio of less than 2 legal aid attorneys per 10,000 people in the State living below 200% of the poverty line.

Of the 13 committee members voting, all committee members unanimously voted to support restoring the \$2,000,000 per year in additional General Fund appropriations over the baseline that began with Public Law 2023, chapter 412. While an 8-member majority urges your committee to maintain the current level of funding for civil legal services by adding this \$2,000,000 in General Fund appropriations on an ongoing basis, a 5-member minority feel strongly that this funding should be provided during the 2 years of the biennium on a one-time basis. In addition, the 8-member majority support including within this new initiative a phased approach to increasing the amount of funding available for Maine civil legal services in a way that will allow the State to reach a ratio of approximately 5-6 legal aid attorneys per10,000 people in the State living below 200% of the poverty line by the end of the biennium.

Accordingly, the committee's vote on this new initiative can be summarized as follows:

Majority Report: 8 members (Carney, Kuhn, Talbot Ross, Lee, Sato, Sinclair, Pugh, O'Halloran)

- Add a total of \$5.1 million in General Fund appropriations to the Maine Civil Legal Services Fund in FY 2025-26. This restores the \$2,000,000 from last session and adds \$3,100,000 in new funding. Both amounts should be provided on an ongoing basis.
- Add a total of \$8.2 million in General Fund appropriations to the Maine Civil Legal Services
 Fund in FY 2026-27. This adds \$3,100,000 in new, ongoing funding above the amount in FY
 2025-26.

Minority Report: 5 members (Haggan, Poirier, Henderson, Caruso and Babin)

• Add \$2,000,000 in General Fund appropriations in each year of the biennium to the Maine Civil Legal Services Fund as a one-time appropriation only for this biennium.

Maine Commission on Public Defense Services. Vote: 8 (FOR) – 5 (AGAINST)

An 8-member majority of the committee also voted in favor of adding a series of new initiatives to the Maine Commission on Indigent Public Defense Services' (PDS') portion of the biennial budget designed deliver constitutionally required legal counsel to Maine's citizens. As your committee is no doubt aware, in *Robbins v. Maine Commission on Public Defense Services*, No. CV-22-054 (Me. Super. – Kenn. Cty), Superior Court Justice Michaela Murphy declared and concluded "that the MCPDS Defendants have deprived" a class of criminal defendants who are eligible for appointment of counsel at state expense under the Sixth Amendment of the U.S. Constitution but who remain unrepresented after arraignment or first appearance "of their Sixth Amendment right to representation at critical stages between the time the right attaches and the time of the dispositional conference" in their cases. In addition, as a result of the State's constitutional violation, Justice Michaela Murphy has recently ordered that, in the near future, certain criminal cases must be dismissed and incarcerated individuals released if they have a right to counsel under the Sixth Amendment but remain unrepresented for an unacceptable amount of time.

Majority Report: 8 members (Carney, Kuhn, Talbot Ross, Lee, Sato, Sinclair, Pugh, O'Halloran) As the attachment to this memorandum demonstrates, PDS asked the Judiciary Committee to recommend that 16 new initiatives be added to the biennial budget. However, the 8-member majority of the committee voted to recommend that 7 of those new initiatives be added to the budget, in the following order of priority:

- <u>First Priority:</u> Establish a new public defender office in each of the remaining prosecutorial districts in the State that does not yet have a public defender office: Prosecutorial District 1: York County; Prosecutorial District 2: Cumberland County; and Prosecutorial District 6: Sagadahoc, Lincoln, Knox and Waldo Counties (described by PDS as the "Midcoast PD Office). See attached PDS initiatives 1-3.
- <u>Second Priority</u>: Provide sufficient "All Other" funding to pay assigned counsel, who represent individuals in cases not served by public defender offices. As the new public defender offices across the State get up and running, including the three new offices mentioned above, the required amount of additional "All Other" funding over the baseline is anticipated to decrease from \$12,888,384 in FY 2025-26 to \$3,630,976 in FY 2026-27. See attached PDS initiative 14.
- Third Priority: Increase the capacity of the public defender offices across the State in two ways: (a) by adding sufficient staff to the Parents Counsel Division in order to allow the division to represent one parent in at least one-third of the protective custody cases across the State and (b) by adding sufficient staff to the other public defender offices statewide to allow those offices to represent approximately 50% (rather than 33% currently) of all adult criminal defendants across the State who are entitled to legal counsel at state expense. See attached PDS initiatives 5 and 7.
- Fourth Priority: Establish 3 new positions within the PDS Central Office specifically responsible for coordinating and facilitating the assignment of counsel to indigent clients across the State who are currently on the list of unrepresented criminal defendants and parents in child custody cases, especially defendants who are currently incarcerated. See attached PDS initiative 4.

Minority Report: 5 members (Haggan, Poirier, Henderson, Caruso and Babin)
These 5 members of the committee do no support adding new initiatives to the PDS portion of the biennial budget.

Abstain: 1 member (Sinclair)

III. Additional Recommendation Regarding Victim Services. Vote: 11 (FOR) - 2 (AGAINST)

On page A-394 of her biennial budget proposal, the Governor proposed providing \$3,000,000 in each fiscal year of the biennium "to replace current and anticipated reductions in grants to [DHHS] under the

federal Victims assistance formula grant program administered by the United States Department of Justice, Office of Justice Programs, Office for Victims of Crime Act of 1984."

As your committee may recall, last session the Judiciary Committee considered LD 2084, An Act to Provide Funding for Essential Services for Victims of Crimes. At that time, we learned that the federal Victims of Crime Act (VOCA) funding available to the State of Maine was anticipated to be reduced by approximately \$6,000,000 per year moving forward. This federal funding traditionally provides essential services to crime victims across the State, including by providing funding for Victim Witness Advocates and the coordination and support of those advocates by the Office of the Attorney General, victim services in the Department of Corrections, funding for the Child Advocacy Centers across the State that serve child victims of alleged sexual assault crimes, the Court Appointed Special Advocate Program in the Judicial Branch, and many more services. The Judiciary Committee unanimously voted to support an amended version of LD 2084 that would have provided \$6,000,000 in ongoing funding to replace current and anticipated reductions in federal VOCA funding. The bill was passed to be enacted in the House and placed on the Special Appropriations Table in the Senate, where were are disappointed to report that remained when the Legislature adjourned.

Thankfully, Public Law 2023, chapter 643, a supplemental budget bill, provided one-time funding of \$6,000,000 to replace reduced federal VOCA funding in FY 2024-25. This funding, which is urgently needed by providers of victims support services, will cease on July 1st of this year.

Majority Report: 11 members (Carney, Kuhn, Talbot Ross, Henderson, Lee, Sato, Sinclair, Pugh, O'Halloran, Caruso, Babin).

These 11 members of the committee voted in favor of amending the initiative on page A-394 of the Governor's proposed biennial budget as follow:

- Increase from \$3,000,000 to \$6,000,000 the additional appropriations to replace current and anticipated reductions in federal VOCA funding. This should be an **ongoing** appropriation.
- In addition, to ensure that this funding does not lapse, add the following new language to the biennial budget:

5 MRSA §1591, sub-§2, ¶L is enacted to read:

L. Any balance remaining in the accounts of the Department of Health and Human Services appropriated for the purpose of supplementing grants to the department under the federal victim assistance formula grant program administered by the United States Department of justice, Office of Justice Programs, Office for Victims of Crime pursuant to the federal Victims of Crime Act of 1984 at the end of any fiscal year to be carried forward for use in the next fiscal year for the same purpose.

Minority Report: 2 members (Haggan, Poirier)

These 2 members of the committee did not vote in favor of increasing the amount of the Governor's proposal for replacing lost federal VOCA funds.

IV. Conclusion

Thank you for the opportunity to present our recommendations related to the Governor's proposed biennial budget (LD 210). Please find attached the documents from the Maine Commission on Public Defense Services referenced in our description of the new PDS initiatives supported by a majority of the committee as well as a copy of the report-back worksheet prepared by OFPR, upon which we have noted the committee's vote on each initiative included within the Governor's biennial budget proposal.

Please let us know if we can provide any additional information or assistance in connection with these recommendations.

Justification:

The Attorney General is the chief legal officer for the state. All litigation involving the State must be prosecuted or defended under the direction of the Attorney General unless the Attorney General otherwise approves in writing. The Office (a) appears in all civil actions and proceedings in which the State is a party; (b) directs the investigation and prosecution of homicides and other major crimes, including major drug cases and frauds against the State; (c) renders legal services to State officers, boards and commissions in matters relating to their official duties; (d) issues written opinions upon questions of law submitted pursuant to statute; (e) administers and enforces the State's unfair trade practices and antitrust laws; (f) enforces proper application of endowments to public trusts and charities; and (g) consults with and advises the District Attorneys. The Attorney General also serves as an ex-officio member on many State authorities and Commissions. The Office of the Attorney General is organized by 5 M.R.S.A. Section 191 with the Attorney General as its chief executive. The Office includes the following divisions: The Consumer Protection Division enforces state antitrust and consumer protection laws, the state merger statute and the Unfair Trade Practices Act. The Division also discharges the Attorney General's mandate to oversee charities and is responsible for the investigation and prosecution of the unauthorized practice of law. The Consumer Mediation Program uses trained volunteers to mediate consumer complaints, and the Lemon Law Arbitration Program administers the State's lemon law. The Criminal Division has exclusive responsibility for the prosecution of homicide cases, handles numerous criminal appeals to the Supreme Judicial Court, advises the District Attorneys, and prosecutes major drug cases across the State; prosecutes white collar and financial crimes, welfare fraud, Medicaid fraud, computer crimes, tax crimes, and securities violations; and brings enforcement actions under the Maine Civil Rights Act. The Investigation Division investigates fraud against the State and provides direct investigative services for other divisions in the Department. The Division is responsible for investigating

police-involved fatalities, certain crimes against public officials, hate crimes, and financial exploitation of elders. The Division serves as a resource for other law enforcement agencies, participates in law enforcement training and conducts investigations for the Medical Board, the Osteopathic Board and the Tobacco and Substance Abuse programs. Three divisions represent the offices within the Department of Health and Human Services (DHHS). The Child Protection Division represents the State in child protection matters. The Child Support Division represents the State in child support enforcement matters. The Health and Human Services Division represents all other offices within DHHS in complex litigation in state and federal courts, in contract and rule review, in administrative hearings and in providing routine legal advice. The Division provides legal advice regarding a variety of topics including MaineCare, adult protection, guardianship, mental health, physical health, rules, contracts, licensing, and public benefit programs. The Division also represents DHHS in enforcement actions designed to protect public health and safety. The Professional and Financial Regulation Division represents the Department of Professional & Financial Regulation, which includes the Bureaus of Insurance, Financial Institutions and Consumer Credit Protection, the Office of Securities and numerous professional and occupational licensing boards. It also represents the Property Tax Review Board and liquor and lottery regulation within the Department of Administrative and Financial Services. The Natural Resources Division provides comprehensive legal services to the State's environmental and natural

MaineIT is responsible for the delivery of safe, secure, and high-performing networks and systems to State Agencies for daily performance of their missions for the citizens of Maine. IT enterprise functions benefitting all state agencies are managed through this office to ensure consistency, volume discount efficiencies, and optimum performance and throughput. MaineIT is established as an internal service fund intended to recoup their costs through billings to departments and agencies for services provided. MaineIT expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including vendor increases, supply chain costs, and network and systems modernization and upgrades. This recoupment process results in increased billing rates to departments and agencies.

Justification:

The Chief Medical Examiner's office investigates all deaths due to other than natural disease or that cannot be certified by a private attending physician. The goal of the Office is to provide thorough investigations, to help solve crime and to support public health and public safety by providing accurate information about the cause of deaths in the state. The Office strives to provide timely reports to government agencies, families and other interested parties regarding the circumstantial and medical factors which cause death for the purposes of prosecution, departmental action, estate settlement, and statistical information for governmental recordkeeping and policy decisions.

GENERAL FUND			ABSENT: DH, AD	2025-26	2026-27
All Other				\$539,000	\$0
GENERAL FUND	TOTAL			\$539,000	\$0

Justification:

The accreditation standard of the National Association of Medical Examiners (NAME) requires facilities to provide radiology. To maintain accreditation, the Office of Chief Medical Examiner (OCME) needs to acquire radiology equipment that is up to date. The current machine was acquired, secondhand, in 2015. The operating system runs on

Windows 7, when the state operating system is Windows 10. The current machine is not compatible with current office operating systems. Without an update to the current radiology processes with a low dose x-ray (LODOX) system, the OCME's ability to support legal requests and provide complete standard of care forensic examinations will be severely impacted and will in turn, negatively impact medicolegal processes throughout the entire state of Maine. The addition of the LODOX system will bring the OCME in line with national accreditation standards and increase overall autopsy examination efficiency by at least 75%. This will positively impact not only OCME staff but our law enforcement and legal business partners by providing a more thorough medicolegal forensic investigation.

Justification:

The Office of Chief Medical Examiner (OCME) has the exam fee set in statute. The current fee is \$100, with additional fees for blood (\$15), vitreous (\$15), and urine (\$15) sample draws. The average cost of an external exam, with current fee schedule, is \$130. Field Medical Examiners and Investigators respond to funeral homes and hospitals to conduct external examinations at the request of the OCME because Maine's geography prevents the OCME from handling all exam with full-time staff. This funding would allow the OCME to eliminate the additional fees, and provide a flat fee for each external exam conducted. This will help improve Field Medical Examiner and Investigator tenure and streamline current accounting practices when processing invoices.

 \$9,710

Justification:

The Office of Chief Medical Examiner (OCME) reimburses the Field Medical Examiners and Investigators for mileage when they conduct external examinations on behalf of the OCME. This rate paid for mileage is outlined in statute and tied to the mileage rate for state employees. Field Medical Examiners and Investigators respond to funeral homes and hospitals and conduct external examinations of decedents at the request of the OCME. Maine's geography prevents the full-time Investigators from conducting all exams that are needed across the state. In FY24 the OCME spent \$121,395.57 on mileage reimbursement for Field Medical Examiners and Investigators. This funding will provide the OCME with the

resources to pay invoiced mileage, without taking resources away from other operating expenses.

GENERAL FUND TOTAL \$60,000

Justification:

The Office of Chief Medical Examiner (OCME) contracts with a forensic toxicology lab to conduct necessary toxicologic testing. This is a standard in the National Association of Medical Examiners accreditation expectations. Over the past three years, the OCME has seen the toxicology expense increase by 31%. This is due to an increase in the number of deaths requiring toxicology testing (i.e., suspected drug deaths, increased number of autopsies), and to the increased cost of testing. As new illicit substances hit the market, advanced testing is needed, and the cost of identifying and designing testing to identify these substances is expensive. The expense trickles down to the customer. It's vital the OCME provide comprehensive, timely toxicology testing results to meet turnaround times for accreditation standards, but also to provide the best results possible to outside agencies that use this data. The Maine Opioid Response Team uses OCME data for their work, along with law enforcement looking to understand the drug landscape in their jurisdiction.

This initiative increases the number of Medical Examiner Assistant positions from two (2) to four (4). To maintain accreditation, the OCME must meet accreditation standards regarding the number of autopsies being conducted per 100,000 citizens. The National Association of Medical Examiners (NAME) standards state a medical examiner's office covering a population base of about one million people should be performing approximately 850-1000 forensic investigations annually. It is essential for the OCME to be awarded these two Medical Examiner assistant positions to not only maintain NAME accreditation, but to provide the appropriate level of investigation to acquire accurate cause and manner of death vital statistics and medicolegal proceedings for the safety of the entire population of state of Maine.

Chief Medical Examiner - Office of 0412

Initiative: Establishes 2 OCME Planning and Research Associate I positions, one Medicolegal Death Investigator I position and provides funding for related All Other costs.

Justification:

This initiative increases the number of Planning & Research Associate I positions from three to five. The Medicolegal Death Investigator can do all the same tasks as a Planning & Research Associate I, but also conducts external examinations and responds to death scenes. This request would increase the number of Medicolegal Death Investigators from one to two. It is essential for the OCME to be awarded these two Medicolegal Death Investigator positions to not only maintain NAME accreditation, but to provide the appropriate level of investigation to acquire accurate cause and manner of death vital statistics and medicolegal proceedings for the safety of the entire population of state of Maine.

IT enterprise functions benefitting all state agencies are managed through this office to ensure consistency, volume discount efficiencies, and optimum performance and throughput. MaineIT is established as an internal service fund intended to recoup their costs through billings to departments and agencies for services provided. MaineIT expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including vendor increases, supply chain costs, and network and systems modernization and upgrades. This recoupment process results in increased billing rates to departments and agencies.

Justification:

The mission of the Civil Rights Team Project (CRTP) is to increase the safety of elementary, middle, and high school students by reducing bias-motivated behaviors and harassment in schools. There are Civil Rights Teams in nearly 175 Maine schools and training is provided to thousands of students and faculty. The Civil Rights Team Project trains, encourages and empowers high school, middle school and elementary school students to be leaders within their school communities in confronting bias, prejudice and harassment. Faculty in-service trainings increase the responsiveness of faculty and administrators to bias, prejudice and harassment. The program works with local police and schools to foster collaboration in addressing incidents of bias and harassment and increase awareness of parents and community members. The goal of the program is to improve the school experience for members of targeted groups (racial, religious, national origin, sexual orientation, etc.)

Justification:

Historically, the eight District Attorneys' offices handle approximately 90,000 criminal and juvenile cases per year, as well as thousands of traffic and civil violations. They prosecute the majority of all criminal offenses occurring in their district, with the exception of murder. This caseload is carried statewide with a staff of 97 Assistant District Attorneys and 8 elected District Attorneys. When traffic infractions and civil violations are factored in, as well as probation revocations, appeals to the Law Court, and other cases, each Assistant District Attorney handles very high caseloads. The District Attorneys' offices draft warrants, review police reports, screen criminal cases, prepare criminal complaints, motions, memoranda of law, legal briefs and other pleadings. They present felony cases to grand juries, argue motions, meet with police officers, witnesses and victims and try cases in District and Superior Courts. The District Attorney offices also provide training and continuing legal education to law enforcement agencies in their districts.

Justification:

The primary mission of this program is to provide legal services for the programs administered by the Department of Health and Human Services (DHHS). The program is divided among three divisions: The Child Support Enforcement Division represents DHHS in the area of child support enforcement. The Child Protection Division represents DHHS in the area of child protection. The work of these two divisions is done out of four offices-Portland, Augusta, Bangor, and Caribou. Attorneys and paralegals in these areas have the most persistent and heavy caseloads of any Divisions in the Office of the Attorney General. The Health and Human Services Division provides legal representation for all other programs in DHHS, including the MaineCare program, involuntary mental health commitments, defense of lawsuits against the Department and its employees, public guardianship/conservatorship issues, licensure of homes for both adults and children, enforcement of the State's public health laws, enforcement of adult protective laws, represents DHHS's interest in federal benefits programs such as MaineCare, TANF and the AMHI and Community Consent Decree cases.

Justification:

The Victims' Compensation Fund assists victims of violent crime by reimbursing them up to \$15,000 for certain out-of-pocket costs or losses they incur as a result of a crime. The Victims' Compensation Board, comprised of three members from Maine's legal, medical and victim services communities, determines the claims to be paid from the Fund. The Administrative Services Division of the Office of the Attorney General provides staff to administer the Program. The Victims' Compensation Program works closely with District Attorneys, Victim Witness Advocates, the Department of Corrections, and advocates from domestic violence and sexual assault response agencies in order to reach out and assist victims of violent crime.

Justification:

The Maine Human Rights Commission is the State agency charged with the responsibility of enforcing Maine's anti-discrimination laws. Pursuant to 5 MRSA, sections 4551 et seq., the Maine Human Rights Commission investigates complaints of unlawful discrimination in employment, housing, education, access to public accommodations, extension of credit, and offensive names. Also by statutory mandate, the Commission endeavors to resolve complaints by informal methods of persuasion, conciliation and negotiations prior to a determination of whether there are reasonable grounds to believe that unlawful discrimination occurred. The Commission pursues court remedy only when alternative solutions have failed.

Justification:

This initiative increases 2 positions from grade 14 to grade 16 to allow for the hiring of persons with added expertise in business analysis and training. This expertise is necessary in order to train Judicial Branch staff on the 40+ applications (not including MEJIS and Odyssey) used in the day-to-day business of the court system.

Justification:

This request for additional assistant clerks is similar to the request made in the last Biennium and independent operational review has identified a significant lack of clerk staffing in all courts statewide contributing to the backlog. These positions are needed to adequately staff clerks offices throughout the State. The Judicial Branch can no longer rely on temporary staffing to help meet the demands of the work in their offices.

As more courts and case types come online with Odyssey, the need for electronic filing specialists increases. These positions provide centralized review of electronic filings coming into the courts and also provide support for e-filers. These positions relieve the local clerks' offices from reviewing electronic filings and ensure that the formatting and standards for electronic filings is consistent throughout the court system.

The Americans with Disabilities Act (ADA) requires that people with disabilities be afforded equal access to government buildings and services. All courthouses must comply with the requirements of the ADA, for members of the public (Title II) and for employees (Title I). Essential to open Access to Justice are courthouses and courtrooms that are free of barriers. Court patrons who are mobility impaired, physically weak, or have sight, hearing, manipulation, or other disabilities must be able to navigate freely from the outside, through the courthouse entrance, and to each public space within the building. In locations where any barrier exists, the ADA requires a Transition Plan provide a schedule for making modifications. Establishing and prioritizing perennial funds for barrier removal is a critical part of the Transition Plan.

This initiative establishes 3 new Service Center/Violations Bureau Assistant Clerk positions to be assigned to the Service Center so that the Service Center will handle all incoming public telephone calls from all clerks offices. The Service Center is able to respond to approximately 80% of the questions asked in these calls without having to refer the call to the local court. The Judicial Branch Service Center currently answers incoming public telephone calls to the trial courts in four of the eight court regions. In so doing, the Service Center efficiently provides the public contacting those regions with high quality public service (i.e. clear, accurate, consistent and timely answers to their inquiries), while at the same time freeing up court clerks to focus on pressing local needs. This initiative provides funding for the additional staff positions, equipment and software needed to expand the service to the public calling trial courts in the four court regions that are not served.

All Other	\$650,000	\$650,000	\$650,000	\$650,000
GENERAL FUND TOTAL	\$650,000	\$650,000	\$650,000	\$650,000

Justification:

Since 1967, Pine Tree Legal Assistance has provided free individual legal services to low-income Maine residents with serious civil legal problems. It handles cases that are not eligible for court-appointed counsel through the Maine Indigent Legal Defense Commission. Legal help is provided through a statewide call center, a network of local field offices (Portland, Lewiston, Augusta, Bangor, Machias and Presque Isle) and several statewide projects (serving victims of sexual assault, veterans, Native Americans, low-income children, and homeowners at risk of foreclosure). In addition to enforcing legal protections on behalf of individual clients, a November 2016 report has detailed significant economic impact to the State from this work.

https://www.justicemaine.org/wp-content/uploads/Gabe-Report-Submitted-November-14-2016.pdf Pine Tree Legal Assistance is recognized on a national basis for the quality of its legal work and the efficiency with which it delivers services. Three program websites (www.ptla.org and www.kidslegal.org for Maine residents and www.statesidelegal.org for veterans and military families nationwide) provide access to user-friendly explanations of the law, court forms and other self-help tools. In CY 2017, Pine Tree handled more than 7,700 cases and its websites were used by more than 2.2 million people. Unrestricted general funding has steadily declined, although it is essential in allowing Pine Tree to focus legal services on the needs of local residents throughout the State. Pine Tree's current State Appropriation of \$500,000/year is one of the largest single sources of general funding and currently represents almost a quarter of CY2018 general funds. The State Appropriation is also essential as a source of matching funds for other federal and foundation grants that can expand access to legal services around the State.

PART X

AMEND = MATCH LANGUAGE IN LD 249

Sec. X-1. 22 MRSA §3024, ¶1, as enacted by PL 2017, c. 284, Pt. EEE, §1 is amended to read:

The salary of the Chief Medical Examiner of the State must be set by the Governor. Other nonsalaried medical examiners and nonsalaried medicolegal death investigators, upon the submission of their completed report to the Chief Medical Examiner, must be paid a fee of up to \$100\frac{150}{150}\$ for an inspection and view and are entitled to receive travel expenses to be calculated at the mileage rate currently paid to state employees pursuant to Title 5, section 8. An additional fee of \$50 may be authorized by the Chief Medical Examiner for payment to other nonsalaried medical examiners and nonsalaried medicolegal death investigators for visits to death scenes other than hospitals.

Sec. X-1. 22 MRSA §3024, ¶3, as enacted by PL 2017, c. 284, Pt. EEE, §1 is amended to read:

The Chief Medical Examiner may, in an unusual circumstance as determined by the Chief Medical Examiner, prescribe a special fee for the service of a medical examiner or medicolegal death investigator or for any consultant service the Chief Medical Examiner determines necessary, except that it will not pay for standard blood, urine or vitreous collections as those are now included in the external examination fee.

PART X SUMMARY

This language change would update the fee for external examinations conducted by nonsalaried medical examiners and nonsalaried medicolegal death investigators to \$150 from \$100. It will also eliminate the fees currently paid at the OCME's discretion for blood (\$15), urine (\$15), and vitreous (\$15) collections.
