## **SUMMARY OF MAJOR STATE FUNDING DISBURSED TO MUNICIPALITIES AND COUNTIES**

This report summarizes the major state funding disbursed to municipalities and counties. These disbursements represent a substantial portion of the State’s budget and significantly affect local government budgets as well. The State’s support of municipal and county functions through these disbursements has a major impact on the amount of local property taxes assessed on Maine taxpayers to support municipal and county government. The report captures state funds, including bond proceeds, paid directly to municipalities and counties or paid on their behalf for a local governmental purpose. All major direct-disbursement programs/items are reflected, such as General Purpose Aid for Local Schools and State-Municipal Revenue Sharing, as well as certain indirect expenditures, most notably, Teachers’ Retirement, which is paid by the State for the “employer share” of teacher retirement costs. The amounts in this report do not include federal funds that pass through state agencies to local units of government and do not reflect any benefit that local units might receive from the sales tax and fuel tax exemptions for local governmental purchases. The exclusion of federal funds is particularly noteworthy during the period from FY 2009 through FY 2011 because a significant amount of the American Recovery and Reinvestment Act of 2009 federal stimulus funds passed through to local school units to mitigate the impact of cuts in state funding. The summary data in this report also do not include amounts the State pays to individuals and businesses as reimbursement for local property taxes. Appendix A summarizes those expenditures separately.

State funding disbursed to municipalities reached a new all-time high in FY 2019 (see the graph on page 3). The previous peak occurred in FY 2018, which was the first time it had exceeded the high of FY 2008. The years after FY 2008 saw decreased disbursements coincident with a period of economic recession. Assuming disbursements in FY 2020 and FY 2021 conform to budget, the average annual percent increase in all disbursements will be 2.4% over the 20-year period from FY 2002 to FY 2021. On an inflation-adjusted basis that is an average annual increase of just over 0.3%.

The extent of the State’s financial support of local governments can also be expressed as a percentage of state revenue. For FY 2019, disbursements to municipalities and counties from the General Fund represented 33.9% of total General Fund revenue, which was less than the FY 2018 percentage but only because the increase in disbursements in FY 2019 was smaller than the increase in General Fund revenue. If State-Municipal Revenue Sharing expenditures were included as General Fund expenditures and the revenue set aside for revenue sharing is added back to General Fund revenue, the percentage of these disbursements would be 35.2%. When all state disbursements to municipalities and counties, excluding bond expenditures, are compared to total state operating revenue (which for the purposes of this analysis excludes all federal funds, enterprise funds, internal services funds, trust funds and bond funds), the State disbursed 26.7% of its adjusted operating revenue back to municipalities and counties, a decrease from FY 2018.

(1) FY 2003 BETR expenditures reflect a change in the filing date to August 1st, resulting in a one-time reduction in that fiscal year.

(2) The Maine Residents Property Tax Program or "Circuit Breaker" was replaced beginning with the 2013 tax year (impact begins FY 2014) with an individual income tax credit, the Property Tax Fairness Credit.

(3) Beginning in FY20, flat amounts are paid to individuals eligible for a homestead property tax exemption based upon the funds available in the Property Tax Relief Fund for Maine Residents. Amounts available in the Fund must be sufficient to make a relief payment of at least \$100 to the property tax payer for each homestead, to pay for the Treasurer of State's administrative costs and to pay mandated costs to municipalities.

(4) Budgeted amounts through the May 19 Revenue Forecast and the 1st Special Session of the 129th Legislature.
