That the State Controller transfer \$47,717 from the All Other line category to the Personal Services line category within account 013-15A-0214-31, Disaster Assistance for the purpose of funding administrative costs for the Public Assistance Grant Program; and,

Be it further ordered,
that the State Controller increase the allotment in account 013-15A-0214-31, Disaster Assistance by \$47,717 in the Personal Services line category, and decrease the allotment in account 013-15A-0214-31, Disaster Assistance by \$47,717 in the All Other line category for the purpose of funding administrative costs for the Public Assistance Grant Program; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2021", for which this shall be our sufficient warrant.

Statement of Fact

This order provides the allotment necessary for Maine Emergency Management Agency to charge the Public Assistance (PA) and Hazard Mitigation Grant Program (HMPG) Program Grants for grant related administrative costs. Through the PA Program, FEMA provides supplemental Federal disaster grant assistance for debris removal, emergency protective measures, mitigation and the repair, replacement, or restoration of disaster-damaged, publicly owned facilities and the facilities of certain private non-profit organizations. The PA Program also encourages protection of these damaged facilities from future events by providing assistance for hazard mitigation measures during the recovery process. Funding is 100% Federal Expenditures Fund provided by U.S. Department of Homeland Security. This transfer will not cause a shortfall in the All Other line category in this fiscal year, and no state match is required.

That the State Controller increase allotment in account 014-13A-0027-16, Halibut Fund by \$20,907 in the All Other line category for the purpose of allotting a portion of the unencumbered balance forward for implantable electronic data storage tags for the halibut longline survey; and,

Be it further ordered,
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2021", for which this shall be our sufficient warrant.

Statement of Fact

This financial order allots a portion of the unencumbered balance forward for implantable electronic data storage tags for the halibut longline survey. The purpose of this survey is to provide an index of adult halibut biomass as a basis for future assessments. The DST centi-ex archival tags will be surgically implanted into live Atlantic halibut. These tags collect data on temperature and depth at pre-programmed time intervals, and can take measurements at depths up to 5,000 feet. The data from these tags can be used to determine where halibut migrate and if, when, and where they spawn. Failure to allot these funds will cause a detrimental impact on the ability to continue to set precautionarily low catch limits, and this could result in lost revenue in our state waters halibut fishery and the broader federally-managed multispecies fishery.
