Dear Apportionment Commission,

I'm writing on behalf of the League of Women Voters of Maine. We were concerned to hear during your meeting on Friday, September, 10, that maps would be released to the public in .pdf format. A few of the tools available to the public support this format, but many do not. In order to evaluate the fairness of proposed maps, interested groups must have access to shapefiles. As we await the release of the maps within days or hours, we urge you to make them available in this standard and expected format.

Thank you for your consideration.

Respectfully,

Penelope Hamblin
