---

## Fiscal Note

Current biennium cost increase - General Fund

### Fiscal Detail and Notes

Requiring the Department of Health and Human Services provide waiver services to all individuals on waitlists for the specified MaineCare waiver programs would have a significant General Fund cost, with preliminary Department of Health and Human Services estimates indicating annual State costs of more than \$30 million per year. The exact number of individuals affected, the timing and availability of services and the cost of the services to be provided cannot be determined at this time.
