## 6 **SUMMARY**

7 This bill creates an annual licensing requirement, in addition to the existing  
8 certification requirement, for certain persons selling, transferring or otherwise delivering  
9 wild mushrooms within the State. This bill provides that a person does not need a license  
10 to sell wild mushrooms that had been originally received from a licensed person. Fees  
11 currently required for certification are shifted to the annual licensing system. This bill  
12 adds a requirement that license holders maintain liability insurance, provides for a civil  
13 penalty of \$1,000 to \$5,000 for each violation of the license or insurance requirement and  
14 provides for license suspension for repeat offenses.
