HOUSE REPORTS - from the Committee on **TAXATION** on Bill "An Act To Exempt Unemployment Benefits from State Income Tax" (EMERGENCY)

(In Senate, March 16, 2004, Reports **READ**.)

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President, men and women of the Senate. I urge that you defeat this report and go on to accept the majority report from the Taxation Committee, which is Ought Not to Pass. While this would seem to be an obvious benefit for many in Maine who are unemployed at this time, there are two sides to this story. For somebody that was a relatively low income earner and is eligible for unemployment benefits, the probability is high that they won't pay taxes on that anyways. For those who, fortunately, worked in a fairly high paying job, for instance the paper workers in this state, and are now unemployed either temporarily or permanently, we face the prospect, by passing this, of those workers being exempt from income taxes. If you are a \$40,000, \$50,000 or \$60,000 a year earner, and for part of the year you collect unemployment benefits, it hardly seems fair to me that this person should be exempt from taxes in Maine. Thank you.

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Penobscot, Senator Stanley.

Senator **STANLEY:** Thank you, Madame President. It is an honor today to be able to rise on this particular bill. The reason why I can rise on it is because I know a lot of people who are living this today. I'll tell you everybody sitting in this room should take a look at their district. The reason why I'm saying that is because a lot of you have the same type of community as I do in my districts with one horse industries. These one horse industries are the towns themselves. Without the one horse industries the towns die. Without people being able to spend some money in those communities, the towns go away. With that being said, it's very important that the people in this body realize that it could come to a community near you. Nothing is sadder than watching a community die. I've seen Millinocket die. I've seen East Millinocket on the verge of death and then it came back. Knock on wood. Now I'm looking at a community 20 miles down the road that is on the verge of collapsing. Then I look over at Brewer, another town or city that is living with this situation. There are other places they can go, but a lot of communities have no place to go. You work all your life, 25 or 30 years; you have payments; you build a house; you establish yourself. Then things happen to you. When that happens to you, it's a horse of a different color. Been there, done it, lived it, living it today, and will be living it tomorrow and next week. I'll probably be living it for a while. I tell you,

this is a bill that will help not just the person who is unemployed, but also the community that these people reside in. I'll tell you, what is going on not just here but all across the country is that people are losing jobs.

Every time I've spoken this year it's been about jobs. That is the name of the game, people. Jobs is the name of the game. Everybody out there that I know, 1,500 to 2,000 people, that are collecting unemployment right now within 30 or 40 miles of my district would love to have a job. I tell you what, when you have a job, you can buy things for your family, you have insurance, you have everything. Without a job, you don't have insurance. You people think they are going to Mainecare. Most of these people are making too much money on unemployment to qualify for Mainecare, to qualify for heating oil, to qualify for the food stamps. If you take \$30 or \$40 out of their pockets, it makes a big difference. You are talking about life as a family, which is very important.

A while ago I heard here talk about livable wages. One of the problems in this state has is livable wages. We don't have enough livable wages. I'm not saying unemployment is the way to go, but I do say one thing, when you can have a job and get paid a livable wage, you can survive with all the benefits that the state provides. If you don't have that, you can't survive.

I want to make just one more point before I sit down. Put yourself in the position of some of these people. It could happen to you very easily. I will tell you, Maine is full of one horse industry towns. It could be your brother, your sister, your daughter, your son-in-law, your grandson, or anybody. Put yourself in their situation. Lived for years in the community you grew up in. All of a sudden it's taken away from you through no fault of your own. Here we are in an area where roughly 35,000 are unemployed in the State of Maine. Just think what an extra \$20 would do for these people. It might buy an extra loaf of bread. Might buy a gallon of gas to go find a job. When you don't have the money, it's not there. With that, I would recommend you go with the minority report of Ought to Pass as Amended. Thank you.

On motion by Senator **GAGNON** of Kennebec, supported by a Division of at least one-fifth of the members present and voting, a Roll Call was ordered.

**THE PRESIDENT:** The pending question before the Senate is the motion by the Senator from Penobscot, Senator Stanley to Accept the Minority Ought to Pass as Amended Report. A Roll Call has been ordered. Is the Senate ready for the question?

Majority - **Ought Not to Pass** (8 members)

(In Senate, March 16, 2004, Reports **READ**.)

**THE PRESIDENT PRO TEM:** The Chair recognizes the Senator from Waldo, Senator Weston.

Senator **WESTON**: Thank you, Madame President, men and women of the Senate. This bill that is before you was a great bill. In fact, most of it has already been passed into law. That is why it is back before us today. There was one very important piece that was not applied to the bill that we know as the Dirigo Legislation. I consider that an oversight, perhaps. The reason we should not be just letting the rest of this bill go is because it relates directly to our responsibility as members of the legislature.

The Advisory Council on Health Systems Development that is in place now has every appointment made by the Governor's office. In the original legislation that we have before us today, it divided that appointment process between the Senate, the House, and the Chief Executive's office. We all know when we campaigned and we all know that every day we hear from our constituents about the health care issues; how they are trying to struggle to be a part of it, how they are trying to struggle to understand what we are doing with it. I think this committee is so important that I don't want to shirk my responsibility and I would like to see the President of our Senate and the Speaker of the other body be able to make appointments. There is an amendment that we could forward with that does just that.

The choice before you this morning is very simple. You can let this bill go as not passed into law. By doing that, we are saying we should have nothing to say about who severs on this very important council. We could go forward and take our fair share of responsibility and be responsive to our constituents back home. Thank you.

**THE PRESIDENT PRO TEM**: The Chair recognizes the Senator from Cumberland, Senator Brennan.

Senator **BRENNAN**: Thank you, Madame President, men and women of the Senate. It's somewhat unfortunate that this bill is before us today and it is certainly unnecessary that this bill is before us today. This bill was presented last session. It did relate to Dirigo Health and to healthcare reform. As a result of that, the bill was carried over to the next session. In Dirigo Health, it was passed last session. We had an analysis that was done by the OPLA staff. They did a side-by-side of this bill with what was in Dirigo Health. It was virtually identical. The previous speaker, the Senator from Waldo, Senator Weston, acknowledged that. What was put forward in this bill during the last session was almost fully incorporated into Dirigo Health. The substance of the bill, the important part of the bill, was passed in Dirigo Health, unanimously, by the Joint Select Committee on Healthcare Reform. When we pass that, nobody raised the issue of appointments. When the committee reconvened this year, we said we was going to bring this bill forward and report it out Ought Not to Pass, because we have done it in Dirigo Health. All of a sudden, there are these concerns raised about who is doing the appointments. Never were they raised during the discussion about Dirigo Health. Now we need to have this debate and discussion about who is going to do the appointments. In an act of good faith, there was a compromise that was put forward by the Chief Executive's Office relative to this bill. It was dismissed, turned down. They said, 'no, we don't want to do that. We'd rather continue to go forward with this minority report.' So I urge you to support the majority report, which is Ought Not to Pass, because we already addressed this issue in Dirigo Health. If this were not simply a carry over bill, it would not be before us today. Thank you. Again, I hope you will support the pending motion.

**THE PRESIDENT**: The pending question before the Senate is the motion by the Senator from Cumberland, Senator Brennan to Accept the Majority Ought Not to Pass Report.

The Chair ordered a Division.

On motion by Senator **WESTON** of Waldo, supported by a Division of at least one-fifth of the members present and voting, a Roll Call was ordered.

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

Senator **BRENNAN** of Cumberland was granted unanimous consent to address the Senate on the Record.

Senator **BRENNAN**: Thank you, Madame President, men and women of the Senate. My grandmother arrived in Portland from Galway Bay in Ireland in 1912. If she had come 50 years earlier, and landed in Boston, she probably would have been greeted with signs that said, 'Irish need not apply.' At that time, there was prejudice, discrimination, and stigma against people who were Irish. Fortunately, today we don't have that. Actually today we have St. Patrick's Day and we celebrate and everybody is proud to be Irish.

I'm also pleased to announce today that this Friday, at 10:00 in the morning, there will be an open house for Riverview Psychiatric Center. That is a significant step in this state to addressing the stigma related to mental illness. For the first time in its history, this state will move from the 18<sup>th</sup> century notion that people should be institutionalized, to the notion that persons with mental illness need and deserve a state of the art facility that does not stress restraint and institution but stresses how to reintegrate people back into the community.

My announcement today is first to wish everybody a happy St. Patrick's Day and secondly to announce that there is a really historic event this Friday at 10:00 in the morning at the Riverview Psychiatric Center where this state will take a huge step forward in addressing the issues of stigma and mental illness. Thank you.
