

**STATE OF MAINE
ONE HUNDRED AND TWENTY-FIRST LEGISLATURE
SECOND SPECIAL SESSION
JOURNAL OF THE SENATE**

In Senate Chamber
Tuesday
March 30, 2004

Senate called to order by President Pro Tem Sharon A. Treat of Kennebec County.

Prayer by Reverend Anne Stanley, Christ Episcopal Church in Norway.

REVEREND STANLEY: As I came over from Norway through Buckfield, Turner, and Wayne, a beautiful country even at this time of year, I was thinking about the current work of religious communities today, my denomination, even my parish church. We're working together on how to hang together in relationships, as a community and as a body, even when we don't agree on everything. We are realizing that we do that by paying attention to how we listen to each other, by doing deep listening, with compassion and without rancor. Just hearing what the other person is saying to us, what might be making that other person tick. I realized, while I bounced along, that you, in the Senate, are doing that very same thing in this body, this Senate. How well you live out your call. How well you manage to serve the folk who elected you. This has everything to do with how well you listen to each other, with compassion and without rancor. We have this in common. I suggest that even the world community has this in common with us. Just a thought. Let us pray.

Most holy God, bless the leaders of our nation that they may help us to be a people at peace among ourselves and a blessing to the other nations of the world. Most especially give wisdom and great courage to the women and men of this community, the Maine Senate. Help them listen deeply to each other as they work together to find ways to improve the lives of the people they serve. Finally, teach us all to rely on Your strength, that we may be faithful to You in our time and inspire hope for those who come after us. Amen.

Doctor of the day, Kathy Lees, M.D. of Vassalboro.

Reading of the Journal of Monday, March 29, 2004.

On motion by Senator **BRYANT** of Oxford, **REFERRED** to the Committee on **AGRICULTURE, CONSERVATION AND FORESTRY** and ordered printed, in concurrence.

Senator **CATHCART** of Penobscot was granted unanimous consent to address the Senate on the Record.

Senator **CATHCART**: Thank you, Madame President, men and women of the Senate. As you all know, March is Women's History Month and each day we have had a handout in the Senate recognizing a famous woman from history who contributed so much to our state and our nation. Today I wanted to give a special notice to our woman from history. She is Edith Marion Patch. You have a pink sheet on your desk about her. Not only was she the first woman president of the Entomological Society of America, Edith Patch spent most of her adult life here in Maine at the University of Maine.

Edith was born back in 1876 and she always had a pioneering spirit. She loved nature. She loved to be outdoors and exploring the woods. She developed a passionate interest in bugs, insects, and butterflies. Her lifelong ambition became to teach, do research, and write books because when she was in kindergarten she found the book about insects that they were taught from in school had incorrect information. Edith was just appalled at that and said, 'when I grow up I'm going to write books that teach children about insects.'

So, as a pioneer back in the late 18th century, Edith went to the University of Minnesota and graduated in 1901. What was a young woman with a degree in entomology to do at the beginning of the 20th century? There were no jobs for her. She really wanted to be a researcher and a writer. She taught school for a couple of years and kept sending letters out around the country, trying to find a suitable position where she could fulfill her dreams. Low and behold, she finally got a letter back from the University of Maine with what she called 'a peculiar offer.' It was a position of voluntary assistant without compensation for one year. The promise of that was if she worked out, if she did a good job, after a year they would actually hire her and pay her a salary to be an entomologist at the University. Edith Patch took that position at the University of Maine Agricultural Experiment Station in Orono. Of course, she proved herself and was granted a salary. She worked for about four decades there. She earned a Master's from the University of Maine and then a Doctorate from Cornell. She published scientific articles, books for children, and worked tirelessly to save the environment and reduce pesticide use.

I wanted to give this speech today because I think that most of us in Maine are not aware of the contributions of Edith Marion Patch to our state. The way I became aware of her was close to ten years ago, in the previous budget crunch, when the University was doing one of its downsizings. They owned the Edith Marion Patch house and the gardens and lands there right on College Avenue in Orono. The former president of the University of Maine, finding that they just didn't have the money to maintain this property, decided to demolish the house. Women and scientists in Orono were just horrified and started trying to save this house. We went to see the president and said, 'this woman was a landmark woman for the State of Maine because she was the first entomologist woman and the President of the National Society and we have to save her house.' So a group was formed called The Friends of Edith Marion Patch. I won't go on too long, but one of the greatest things that this group has done is to produce a wonderful cookbook, of which I have a copy. I know that the Senate President Pro Tem is going to introduce my special guests and shadow today, who happen to be the editor of this great cookbook. Thank you for allowing me to make this small speech on the record just to call attention to a great woman pioneer in our state. Thank you, Madame President.

THE PRESIDENT PRO TEM: The Chair would ask Jo Carol Alford of Orono, who is the editor of the Edith Patch Cookbook, to rise and accept the greetings of the Senate. She is the guest today and shadowing the Senator from Penobscot, Senator Cathcart.

All matters thus acted upon were ordered sent down forthwith for concurrence.

ORDERS OF THE DAY

Unfinished Business

(In Senate, February 18, 2004, Reports **READ**.)

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Cumberland, Senator Turner.

Senator **TURNER:** Thank you, Madame President, ladies and gentlemen of the Senate. This bill seeks to put a Band-Aid on the structural defects that are so often present in Maine's economy. Rather than to pass this bill, I would encourage you to vote against the majority report so we can move onto the minority report. I would remind you that structural defects such as high Workers' Compensation costs, unemployment costs, and the like are more the trouble than simply trying to provide a built-in advantage to a domestic bidder in a public construction project. Thank you very much.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Androscoggin, Senator Rotundo.

Senator **ROTUNDO:** Thank you, Madame President, men and women of the Senate. I urge you to support the majority report. Two years ago I got a call from the owner of a small business in Lewiston. He's in the steel fabrication industry. He said to me, 'You know if the legislature doesn't do something about trying to mitigate the negative effects of trade agreements my industry will shortly be out of business and other industries will as well.' He talked about the unlevel playing field that trade agreements, such as NAFTA, create. This bill attempts to level the playing field for one manufacturing sector. It's a beginning. International trade is important to our state but it must be fair trade. I, for one, can't sit by and watch more manufacturing jobs leave the state. If we can help one sector of our manufacturing economy by passing this bill I will very pleased. I urge you all, please, to support the majority report that is now before you. Thank you.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Kennebec, Senator Blais.

Senator **BLAIS:** Thank you, Madame President. I would like to pose a question through the Chair.

THE PRESIDENT PRO TEM: The Senator may pose his question.

Senator **BLAIS:** Thank you. What trade agreement are we talking about that has any bearing on this particular piece of legislation? Thank you.

THE PRESIDENT PRO TEM: The Senator from Kennebec, Senator Blais poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Androscoggin, Senator Rotundo.

Senator **ROTUNDO:** The business owners that I've been dealing with in the state have identified NAFTA in this particular instance. I would encourage you to talk to constituents of yours who are in the steel fabrication industry and they can talk to you very specifically about the effects of NAFTA on their business.

On further motion by same Senator, supported by a Division of at least one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Cumberland, Senator Turner.

Senator **TURNER**: Thank you, Madame President, ladies and gentlemen of the Senate. I would ask you to reflect back on the initial comments of the good Senator from Androscoggin, Senator Rotundo, when she talked about the need to level the playing field. That is exactly what this is all about, leveling the playing field. This legislation is nothing but a Band-Aid. It does not deal with the underlying structural impediments to Maine's businesses. I would urge that you vote against the pending motion. Thank you.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Kennebec, Senator Blais.

Senator **BLAIS**: Thank you, Madame President, men and women of the Senate. I did look into this matter. I spoke to the sponsor of the bill. I spoke to some members of the committee. I asked explicitly exactly what was in play that caused this legislation to be brought forward. I understand that there is the perception that there is a lack of fairness between the State of Maine and some of the Providences in Canada. However, I was presented with zero evidence that NAFTA comes into play. There was some suggestion that there are some local laws in Canada's Providences that provide for a buy Canada or buy Quebec, which does give them some advantage. I think that there are other ways to deal with this problem besides an arbitrary 15% advantage that would be provided to Maine businesses. I think a reciprocity provision would have been a much better approach to this. I would concur with the good Senator from Cumberland, Senator Turner, that the problem that has given rise to this is the impediments that exist on Maine businesses because of high unemployment taxes, Workers' Compensation costs, and other high wage taxes in our state. If we are going to level the playing field, we need to focus in those areas first. Thank you.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Oxford, Senator Bennett.

Senator **BENNETT**: Thank you, Madame President and fellow members of the Senate. I agree with the previous speaker. I think that there are other things that we can do. I really see very little reason to object to the current proposal before us. I will be voting in favor of it. I do think one weakness is that it seems to single out an industry where there are others that similarly effected. I will be supporting the present motion and I hope that we can broaden the bill to encompass some other industries that are similarly affected by competitive pressures from across the boarder. Thank you, Madame President.

THE PRESIDENT PRO TEM: The pending question before the Senate is the motion by the Senator from Androscoggin, Senator Rotundo to Accept the Majority Ought to Pass as Amended Report. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

(In House, February 18, 2004, the Majority **OUGHT TO PASS AS AMENDED** Report **READ** and **ACCEPTED** and the Bill **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (H-672).**)

(In Senate, February 19, 2004, Reports **READ.**)

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from York, Senator Nass.

Senator **NASS:** Thank you, Madame President, men and women of the Senate. It is a little unusual to stand up in opposition to a report that only asks for a study committee. In that sense I'm also thankful that we have dodged this bullet, even though I'm on the minority here. This is all about the streamlined sales tax project, a project that was started in 2000 and was taken on by NCSL in response to the concern that the states were losing sales tax revenue to the internet or to catalog sales. It's not a new problem. It's been around for a while.

I'm taking this opportunity just to inform everybody here that, even though in the end I'm urge you to support the Ought to Pass report, I'm concerned about this. We ought not to leave this session and go home thinking that there is a source of revenue out there because the promise of this project is not going to be realized. It's a disaster. It's a disaster because of the nature of this sales tax system. We have 7,500 taxing jurisdictions in this country. The initial promise of the project was that somehow we could get down to a one rate - one state situation. Therefore, it could become manageable. All of the states sent representatives to participate in this effort, including Maine. The result was not one rate per state. The result was that we still have 7,500 rates out there. The promise also was that we could computerize this system. That has not happened. So going forward on this, which the study committee would do, we do not have anything, in my mind, that resembles a manageable system for dealing with internet sales. I think we all ought to know that. In fact, when you think about this, there is only one group that comes out of this with an advantage. That somebody is producing products in China or India or Ireland and shipping them into this country via the internet. They are not going to pay a sales tax on this. Every other way you look at this system, somebody in America is going to pay. It may result in more revenue for the State of Maine, but it's going to be a mess. I urge you to vote for the majority Ought to Pass as Amended report but hang on, this is going to be quite a ride. Thank you.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Penobscot, Senator Stanley.

Senator **STANLEY:** Thank you, Madame President, ladies and gentlemen of the Senate. I rise today just to say that the title of the bill says that it is a local option tax. This has nothing to do with local option tax. It is just the way the title of the bill came out. I couldn't agree more with the good Senator from York, Senator Nass, that this is something we ought to take a long hard look at. This is something that is the future and what we are looking at down the road. I urge you to support the Ought to Pass as Amended report. Thank you.

On motion by Senator **STANLEY** of Penobscot, the Majority **OUGHT TO PASS AS AMENDED** Report **ACCEPTED**, in concurrence.

READ ONCE.

Committee Amendment "A" (H-672) **READ** and **ADOPTED**, in concurrence.

ASSIGNED FOR SECOND READING NEXT LEGISLATIVE DAY.

The Chair laid before the Senate the following Tabled and Later (3/23/04) Assigned matter:

Bill "An Act To Protect the Privacy of Home Information of Maine State Retirement System Members, Benefit Recipients, Trustees and Staff"

S.P. 619 L.D. 1687

Tabled - March 23, 2004, by Senator **DAVIS** of Piscataquis

Pending - **ADOPTION OF COMMITTEE AMENDMENT "A" (S-442)**

(In Senate, March 23, 2004, Report **READ** and **ACCEPTED. READ ONCE.** Committee Amendment "A" (S-442) **READ.**)

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Cumberland, Senator Turner.

Senator **TURNER:** Thank you, Madame President, ladies and gentlemen of the Senate. This bill, as it came before us a week or so ago, caused some outrage on my part. While I am a little more calm at the moment, the outrage is still with me. Let me see if I can explain to you why.

The three Senators in this chamber who serve on Appropriations have had the distasteful experience of listening to the travails of the Baxter Compensation Authority. For those of you who are not aware, this is an authority that we have already funded with \$6 million of our money. They are back looking for at least another \$6 million and more. The root cause of the problem has to do with the physical and sexual abuse of students at the Baxter School for the Deaf. You might ask why does that have anything to do with this bill? We know for certain, at this point, that there is one member drawing retirement from the Maine State Retirement System. This individual resides in Florida. This gives us a very precise location as to his whereabouts. There is suspicion that there are others who are in that retirement system who have also abused, physically and sexually, students at the Baxter School for the Deaf. We don't yet know whether that is the case or not.

I find it curious that for 40 years our retirement system has had the ability to share this information with the public and now, with the adverse publicity of the Baxter School for the Deaf's compensation authority and the fact that we were able to find one individual by going to this public depository, that we now want to close that off. It is for that reason, and that reason only, that I would urge you to not accept the motion that is before us. I think I'll stop at this point and see what reaction we can generate. Thank you.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Cumberland, Senator Edmonds.

Senator **EDMONDS:** Thank you, Madame President, men and women of the Senate. While I share the outrage of the good Senator from Cumberland, Senator Turner, regarding the harm caused at the Baxter School for the Deaf, this bill came before us and it is not my sense that it came in response to the Baxter School for the Deaf compensation fund request. I actually sponsored that bill. The challenge, I think, that we face is that no convictions were made in those horrible events. The statute of limitations had run out. Despite everyone's earnest desire that we find the perpetrators and convict them, that was not possible. Frankly, I can't see any legal way to carve out the possibility that those people are there. From our conversations in our committee with the retirement system, my sense was not that this was the case. Perhaps you could say that they wouldn't have stated that publicly and that maybe true. I had a feeling that there was a general sense of trying to reach a policy within the retirement system having to do with board members, trustees, benefit recipients, and active members in the retirement system. That is what it covers. That whole spectrum. In our committee we carved out trustees. We said those folks we feel need to be public. We sent a letter to another committee that is studying the general question of privacy. We made some recommendations. We said that we thought, in terms of present retiree recipients and active members who are all in one place, that having their information be kept confidential was a reasonable solution.

I completely the good Senator's outrage. I wish there was something we could do. I bet everybody in this room wishes there was something we could do. I don't think preventing this bill from going forward is the solution. I urge your support of the majority report.

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Cumberland, Senator Turner.

Senator **TURNER:** Thank you, Madame President. At the risk of repeating some things that I've already said, I do hope that you will reflect on what you have heard here. Several members in this chamber have more than passing knowledge of what the Baxter Compensation Authority has tried to deal with. At least three of us are trying to figure out how we can find more money when there is no money to further compensate those who have been victimized. I continue to find it curious that this system had no concerns about this matter for 40 years. I recognize the good Senator from Cumberland, Senator Edmonds, is a sponsor on this bill, which I believe was brought to her by the Maine State Retirement System's Executive Director. The perpetrator is free only because of the statute of limitations. It is my strong suspicion that there are others in this depository of public information who are also guilty but will never be charged and convicted because of the statute of limitations. Right now we know where one person is. The students who were abused by that individual know where he is. If you pass this law, they will probably find some way to get around the lack of information and go to other sources. If this perpetrator moves from Florida to Arizona or Florida to Alabama, they will know because this information, as it exists today, is public. I would urge you not to accept this report or pass the bill. Thank you.

The Chair ordered a Division. 21 Senators having voted in the affirmative and 14 Senators having voted in the negative, Committee Amendment "A" (S-442) **ADOPTED**.

ASSIGNED FOR SECOND READING NEXT LEGISLATIVE DAY.

The Chair laid before the Senate the following Tabled and Later (3/25/04) Assigned matter:

Bill "An Act To Eliminate State Licensing of Boxers, Wrestlers and Transient Sellers"
S.P. 468 L.D. 1410
(C "A" S-377)

Tabled - March 25, 2004, by Senator **GAGNON** of Kennebec

Pending - motion by Senator **BROMLEY** of Cumberland to **RECEDE** and **CONCUR** (Roll Call Ordered)

(In Senate, February 10, 2004, **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (S-377).**)

(In House, March 23, 2004, **PASSED TO BE ENGROSSED**, in **NON-CONCURRENCE**.)

THE PRESIDENT PRO TEM: The Chair recognizes the Senator from Somerset, Senator Hatch.

Senator **HATCH:** Thank you, Madame President, ladies and gentlemen of the Senate. I rise today to ask you to vote against the Recede and Concur. This was a very bad bill six years ago, it was a bad bill four years ago, it is a bad bill today. What this does, at this point with the amendment, is to mandate that we do away with any tough men competitions. Across the United States tough men competitions have begun to happen. They involve a multitude of sport endeavors, including boxing, wrestling, kick boxing, and all sorts of things. The initial bill is amended out. I think the whole bill should go, including the amendment. Originally it was to do away with licensing of the boxers and the commission itself. I have very grave reservations about doing away with the commission, the board that oversees boxing and wrestling in this state. Therefore, I would like to see the whole bill killed. I ask you to join me in voting against the Recede and Concur so we can indefinitely postpone this bill. Thank you.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from Cumberland, Senator Bromley to Recede and Concur. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.
