

**STATE OF MAINE
ONE HUNDRED AND TWENTY-SEVENTH LEGISLATURE
FIRST REGULAR SESSION
JOURNAL OF THE SENATE**

In Senate Chamber
Wednesday
March 25, 2015

Senate called to order by President Michael D. Thibodeau of
Waldo County.

Prayer by Reverend Phil Hubbard, Palermo Christian Church.

REVEREND HUBBARD: Let us pray. Almighty God, the
founders of this great resilience sought Your wisdom in
establishing our nation. With that same power that inspired our
patriots bless the members of this Senate today. Lift them up, O
God. When they feel discouraged, when negative thoughts seem
to dominate, when the winds are against them, strengthen their
minds and spirits with the inner faith that You can only provide.
Equip them with a courage that constantly reminds them that with
God all things are possible. In Your name. Amen.

Pledge of Allegiance led by Senator Dawn Hill of York County.

Reading of the Journal of Tuesday, March 24, 2015.

Doctor of the day, David Edsall, MD of Ellsworth.

Off Record Remarks

Out of order and under suspension of the Rules, the Chair laid
before the Senate the following Tabled and Later Assigned
(3/5/15) matter:

JOINT RESOLUTION - Memorializing Ronald Wayne Libby of
Sorrento

SLS 195

Tabled - March 5, 2015, by Senator **MASON** of Androscoggin

Pending - motion by Senator **BURNS** of Washington to **ADOPT**

(In Senate, March 5, 2015, **READ**.)

The Joint Resolution was **READ**.

THE PRESIDENT: The Chair recognizes the Senator from
Washington, Senator Burns.

Senator **BURNS:** Thank you, Mr. President. Ladies and
gentlemen of the Senate, it is my honor today, and privilege, to be
able to do this memoriam on behalf of my good friend, Ronny
Libby. As you know, we don't do memoriams for everybody when
they pass, but I thought this one deserved to come in front of this
Body. Ronny Libby was what most of us would refer to as an
average guy, just like most all of us in this Chamber here today.
He raised a great family. He had a loving wife. Enjoyed hunting
and fishing and the traditions of Maine. He quietly served his
fellow man as a public servant for many, many years. Ronny was
a State Trooper, like his brother, Barry, who spent his career
helping people, working hard, and making a difference in people's
lives without any recognition or fame or fortune. I guess you
would say he's another of those unsung heroes. I served with
Ronny for many years while he was a detective. Ronny would
take any case that was assigned to him without complaint and
usually find someone that was responsible and prosecute the
guilty person. Much of his work involved heart wrenching child
abuse cases and gruesome homicide investigations. These are
the jobs that most people wouldn't want to take but Ronny did
them and he did them very well. Everyone that worked with
Ronny enjoyed his sense of humor and his straight talk and
approach to things. He would often say to me, "That just isn't
right, David," and then he would go about making it right. I
remember the DA he worked for for a long in Hancock County.
He used to refer to Ronny as a bulldog. That he was. Ronny and
I both had a very good mentor, and this name won't mean
anything to most of you except for my good friend from Hancock,
Senator Langley, Detective Ed Mandel from Northeast Harbor.
Ed was one of the very best Detectives that this state has ever
had. Ed told me just recently, from his perspective, Ronny was
one of the best cops that he ever knew and worked with. That's
quite a compliment coming from, to me, an icon like Ed Mandel.
Ronny wasn't always right. Ed reminded me of a time back in the
80s. When we were detectives back in the 80s we used to go to
work where the homicide investigations took us and stayed for
weeks at a time. That's the way you was able to get the job done.
There was one particular incident back in the 80s when they were
up in Aroostook County and Detective Mandel and Ronny were
sharing a room together. They'd been there for a couple of
weeks, hadn't been able to get home. Ed said that he came out
of the shower one morning, of course by that time they were
running short on clothes, and Ronny was wearing his pair of
brown pants. Ed insisted, "Those are my pants." Ronny insisted
that no, they were his. Ed said, "Call Sandra and find out."
Ronny called Sandra and Sandra informed Ronny that, "No, I
didn't pack your pants this time. Those are Ed's." That's the way
life was when you were on the road with Ronny. Ronny was an
exceptional husband and an exceptional father and a lover of
nature. It was my great pleasure to have known him, to have
worked with him, and I really appreciate this opportunity to speak
on behalf of him. Thank you, Mr. President.

On motion by Senator **BURNS** of Washington, **ADOPTED**.

Sent down for concurrence.

THE PRESIDENT: The Chair is pleased to recognize in the rear of the Chamber Sandra Libby; Pamela Fowler; Chris Libby; Rhonda Nichols; Mary Ann Libby; Rosa Libby; Anna Libby; Maci Libby; Kyle Nichols; and William Nichols. They are the family members of Ronald Wayne Libby. Would they please rise and accept the condolences of the Maine Senate.

(In Senate, March 24, 2015, Reports **READ.**)

On motion by Senator **MILLETT** of Cumberland, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from Cumberland, Senator Millett.

Senator **MILLETT:** Thank you, Mr. President. Ladies and gentlemen of the Senate, the State of Maine consciously decided to put in place a State Retirement Fund in lieu of utilizing Social Security for public school teachers. Local districts did not set up this system, nor did they have say in whether this should happen. This remains the case today. The Retirement Fund is run by the State and school districts have no input into its management. In the proposed biennial budget local share of normal retirement costs jumped 24% for fiscal year 2015. This is an increase of \$7.5 million and will jump again an additional \$8.8 million for fiscal year 2016. No explanation has been given for these increases. State aid to districts does not cover the costs. As proposed in the budget, the cost of education increases \$68 million and the General Purpose Aid from State funding only goes up \$20 million. Local property taxpayers will need to pick up the additional \$48 million, yet local property taxpayers have no say in the management of the Retirement System. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Hancock, Senator Langley.

Senator **LANGLEY:** Thank you, Mr. President. Men and women of the Senate, we've had long debates about this issue, but I'd like to give you a little more personal perspective, having taught

27 years for the City of Ellsworth: hired, taught, and retired from the City of Ellsworth and very proud to be an employee of the City of Ellsworth. That's really where I kind of come down on this. My colleagues, fellow teachers, were actually, indeed, employees of the City of Ellsworth, just as the fire department and the police department and the municipal offices of Ellsworth. Really what cemented my vote in support of this was one of my former bosses, a Superintendent, and he told me this first-hand and was actually quite proud of it, in the last three years of his contract before retirement he had asked the School Board, and the School Board had done it with their permission, to be provided no benefits and an increase in salary by the cost of the benefits and then allow him to purchase those benefits out-of-pocket. The reason why? They would bump up his last three years of his salary in order to ride off into the sunset with a higher retirement income. Why would the School Board agree to that? Because the State was going to pick it up. That willingly happened in more than one occasion. I believe that costs are where I believe they should be because they work for the local municipality. Those kinds of agreements wouldn't be likely to happen, that they would sort of artificially bump up salaries in order to ride off into the sunset with a higher retirement. Therefore, I will be supporting the Ought Not to Pass Report. Thank you very much.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from Hancock, Senator Langley, to Accept the Minority Ought Not to Pass Report, in Non-Concurrence. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

(In Senate, March 24, 2015, Reports **READ**.)

On motion by Senator **PATRICK** of Oxford, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from Oxford, Senator Patrick.

Senator **PATRICK:** Thank you, Mr. President. Ladies and gentlemen of the Senate, colleagues and friends, the purpose of licensing certain mechanical trades requires contractors and tradespersons who perform work and process piping in refrigeration, heating, ventilation, air conditioning, pipe fitting, fire sprinkler, and sheet metal trades to meet minimal industrial standards for education, training, experience, and skill competency to perform their jobs as proficiently and as safely as possible. This legislation attempts to specify the experience and educational requirements that must be satisfied before DPFR can issue journeyman, apprentice, or contractor licenses for refrigeration, air conditioning, pipe fitting, sprinkler fitting, and sheet metal. Sheet metal workers, HVAC technicians, pipe fitters, and fire protection sprinkler fitters perform work that is often integral to the public places where we live and work. It is critical for the persons performing this work to have the skills and knowledge to perform the work in order to protect the public. The mechanical contracting industry is made up of highly skilled trades requiring the persons contracting for and performing this work to be licensed and will improve safety and productivity, making the act a good business policy for the state. This bill is progressive, over-thinking legislation that will benefit the state, its residents, and mechanical contracting industry by ensuring that work done in Maine is performed by contractors and tradespeople that have the education, skills, training, and experience to their work safely and effectively. If we pass this bill both our workers and our consumers will be protected. Maine people need to be sure they are getting what they pay for and setting standards in these fields will help towards that goal. In my real life, ladies and gentlemen, I was a licensed boiler tube welder. In that capacity it's probably one step above a lot of regular welders who do normal welders. The difference between that is if you don't have licensed people welding within the boiler there could be massive explosions. I was extremely happy to have that license when I did have it, I'm a little bit older now and I don't have the eyes to see the way I did. It meant something important to me because I had to meet that standard that would protect anyone that was

within the scope of high pressure, or even low pressure, boilers. There was a sunrise review that was done in 2009. The trades have said since that original sunrise review in 2009 that they didn't believe that everything was taken into account when that review was done to make sure as to whether or not they would receive licensure. You know, ladies and gentlemen, I do agree with what they looked at because when one does a sunrise review, and I will compliment Commissioner Anne Head has done great work and I'm proud to have her on the Labor, Commerce, Research and Economic Development Committee to testify all the time., but there are times when one whose within the trades understands that there are things that laymen might overlook. I think this is a good example of the things that, from my knowledge and understanding of the crafts and trades, it's warranted and I would ask that you would vote against this motion and turn around and pass it. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Cumberland, Senator Volk.

Senator **VOLK:** Thank you, Mr. President. Ladies and gentlemen of the Senate, if this bill sounds familiar it's because it's one that we have, those of us who have been around for a while, heard more than once. In fact, as the good Senator from Oxford referred to, this legislation, with the exact same wording, was passed by the 124th Legislature and in 2010 they published their findings after a detailed analysis, put together by the Department of Professional and Financial Regulations. I just want to read to you the purpose of the sunrise review. "It is a tool for State policy makers to systematically evaluate proposals to establish new regulatory requirements for a previously unregulated profession or expand the scope of practice of a regulated profession. The purpose of the review is to analyze whether the proposed regulation is necessary to protect the health, safety, and welfare of the public." Those of you who aren't familiar with our committee, that is the kind of work that we are frequently considering when we look at whether or not we should be licensing a new profession. I just wanted to say that the members of this review process, the sunrise review which occurred in 2009 and was published in 2010, commissioned by this exact legislation in the 124th Legislature, there was a representative from Maine Pulp and Paper; a representative from Kinetics, which is a plumbers and pipefitters union shop; a representative from the State Fire Marshal; Plumbing, Heating, and Cooling Contractors' Association out of Danvers, Massachusetts; another union shop of plumbers and pipefitters; John Napolitano, who actually came in and testified on this bill; a representative from Associated Builders and Contractors; as well as an associate from Dean and Allen in Gray, Maine. These were not just members of the public who have no education or no experience in these fields. I guess that's my point in reading to you who was part of that. This review was conducted, as I said, it was the exact same language. One of the most compelling arguments that we heard in committee that proponents make is that specialized skills are required of sprinkler contractors to ensure public safety and, therefore, they should be licensed. However, the Department of Public Safety already licenses those people who install our sprinkler systems. Additionally, the installation of sprinkler systems must adhere to a very strict national safety code. The other mechanical trades this Resolve proposes to have the Department review, again, are pipefitters, sheet metal workers, refrigeration, and HVAC. None of those met

the criteria in 2009, 2010, and they still don't meet the criteria. I would suggest that things have not changed all that much and that we need to permit our Department to get on with the business of regulating those professions which are already being regulated, making sure that the people that are doing that work are doing them efficiently and up to safety standards. Thank you.
