

**STATE OF MAINE
ONE HUNDRED AND TWENTY-SEVENTH LEGISLATURE
FIRST REGULAR SESSION
JOURNAL OF THE SENATE**

In Senate Chamber
Wednesday
May 13, 2015

Senate called to order by President Michael D. Thibodeau of Waldo County.

Prayer by Pastor Steve Prescott, The Rock Church in Scarborough.

PASTOR PRESCOTT: Let us pray. Father, God, thank You for this opportunity to worship You today. You are the giver of life, wisdom, and love. Today we lift up Your work in this great state of Maine. It's humble, Lord, to be in the presence of these great leaders that You have appointed as authorities in this state. I pray for them and their families, for their health, for peace that comes from You, Lord. Lord, I encourage any Senators today who feel discouraged, let them know, Lord God, with You they are never alone. Give our government wisdom, Lord God, today to make wise decisions that are based on principles. Fill them with deep love for one another, despite differences of opinion. Let them lead with the love that literally shatters the atmosphere of competition and fosters an environment of togetherness that's so powerful that the rest of the country sees Maine as a place that values every person because we care for every person and that we love God. Let us never forget the influence You've given us and the calling You placed on each of our lives, to be world changers that make this place a little bit more like heaven. Lord, Your will be done on earth as it is in heaven. Amen.

Pledge of Allegiance led by Senator Amy F. Volk of Cumberland County.

Reading of the Journal of Tuesday, May 12, 2015.

Doctor of the day, Jane Pringle, MD of Windham.

COMMUNICATIONS

The Following Communication: S.C. 301

**STATE OF MAINE
127TH LEGISLATURE
OFFICE OF THE GOVERNOR**

11 May 2015

The 127th Legislature of the State of Maine
State House
Augusta, ME

Dear Honorable Members of the 127th Legislature:

Under the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 528, "An Act To Amend the Laws Regarding the Maine Organ and Tissue Donation Fund."

Current law requires the contributions credited to the Maine Organ and Tissue Donation Fund to be collected by the Secretary of State and then reported to the State Treasurer. The Treasurer then forwards the money to the Maine Organ and Tissue Donation Fund which is administered by the Organ Donation Advisory Council. The purpose of the funds is to raise awareness of the importance of organ and tissue donation.

This bill will remove the State Treasurer from this cash collection process and allow the Secretary of State to collect the contributions and then forward the money directly to the council. I cannot support legislation which removes the Treasurer from overseeing state dollars, no matter how much money is in a fund. There must always be checks and balances with public funds and this proposed change to the law is unnecessary.

For this reason, I return LD 528 unsigned and vetoed. I strongly urge the Legislature to sustain it.

Sincerely,

S/Paul R. LePage
Governor

The 127th Legislature of the State of Maine

Dear Honorable Members of the 127th Legislature:

Under the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 4, "An Act To Promote Industrial Hemp."

This legislation is fatally flawed and due to current federal law, I can see no way to make this concept work. Maine's current law regarding industrial hemp contains "trigger provisions" that limit State licensing until the federal government excludes industrial hemp from the definition of "marihuana" or until the U.S. Drug Enforcement Agency issues permits for growing industrial hemp. LD 4 eliminates these important trigger provisions. This bill, however, fails to recognize the fact that the U.S. Drug Enforcement Agency requires a permit to import hemp seed into Maine and permits are only issued to state departments of agriculture or universities for research purposes. No matter what LD 4 proposes, there will not be a source of legal hemp seed for growers in Maine. I fear, however, that Maine farmers may think that with the enactment of LD 4 that they are engaged in a legal enterprise. I simply cannot support inadvertently putting Maine's hard working farmers at risk of violating federal criminal laws, which is the practical effect of this bill.

I also have serious doubts about the agricultural and economic benefits of this bill. At this time, there are no developed markets in Maine for hemp and it is unlikely that this product would command a price high enough to make this crop worth growing. Proponents argue that hemp fiber can act as a replacement for wood fiber, but Maine already has a vibrant forest industry with developed infrastructure. The same cannot be said for hemp, as there is currently no equipment in Maine to grow, harvest, transport, or process hemp.

Plainly put, this bill is fraught with legal risks for Maine's farmers, with no countervailing benefits. For this reason, I return LD 4 unsigned and vetoed. I strongly urge the Legislature to sustain it.

Sincerely,

S/Paul R. LePage
Governor

Dear Honorable Members of the 127th Legislature:

Under the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 59, "An Act To Protect Students' Rights and Privacy Regarding Their School Records."

I believe very strongly that parents and students should have more control over the personal information related to students. At the same time I recognize the special place that private schools hold in the educational landscape of Maine both historically and today.

While I believe government has the right to intervene in privacy concerns in schools that are funded by public funds, I do not believe the state should tread on the rights of private schools.

For this reason, I return LD 59 unsigned and vetoed. I strongly urge the Legislature to sustain it.

The 127th Legislature of the State of Maine
State House
Augusta, Maine

Dear Honorable Members of the 127th Legislature:

Under the authority vested in me by Article IV, Part Third, Section 2 of the Constitution of the State of Maine, I am hereby vetoing LD 1275, "An Act Regarding Notice to the Public Pertaining to a Resident Person Deported from Canada to the United States for Committing a Sex Offense against a Child."

This bill is unnecessary because members of law enforcement agencies may currently inform community members of the presence of someone who has been convicted of a sex offense against a child. This is true whether the sex offender at issue has been convicted in Maine, another state or another country, including but not limited to Canada. The narrow language of the bill may confuse the state of the law. For instance, some law enforcement agencies may think that it is permissible to inform community members of the presence of individuals who committed sex offenses against a child in Canada, but that it is not permissible to inform members of a community of the presence of someone who committed a sex offense against an adult in Canada or against a child in a country other than Canada.

This bill is unnecessary at best and harmful at worst and as such, it constitutes public policy that I cannot support. For this reason, I return LD 1275 unsigned and vetoed. I strongly urge the Legislature to sustain it.

Sincerely,

S/Paul R. LePage
Governor

ORDERS

Joint Order

An Expression of Legislative Sentiment recognizing:

The Northport Village Corporation on the occasion of its centennial. In 1915, the Legislature enacted and adopted Private and Special Law 1915, chapter 136, establishing the corporation. Since that time, residents and property owners in the Village of Bayside in the Town of Northport have taken the responsibility of self-governance to heart, managing the resources of the village carefully and judiciously. The village has promoted its architectural heritage, has maintained, preserved and improved its Community Hall, dock, parks and green spaces, has constructed a sewer system that ensures the waters of Penobscot Bay are clean and has secured access to clean drinking water for its residents. Today, the village continues to be a community of friends, families and enthusiasts for quiet, peaceful living. We extend to the residents and property owners of the Northport Village Corporation our congratulations on the corporation's centennial and our best wishes;

THE PRESIDENT PRO TEMPORE: The Chair recognizes the Senator from Waldo, Senator Thibodeau.

Senator **THIBODEAU:** Thank you, Mr. President. Ladies and gentlemen of the Senate, I rise this morning to tell the Senate about maybe one of the best kept secrets in all of the state of Maine. That secret is Bayside. It has over 300 cottages and homes and perhaps the smallest yacht club in the state. One hundred years ago this June 17th a hamlet of small cottages that had grown out of a campground on the western shore of Penobscot Bay became an incorporated village. For the next hundred years the Village of Bayside became an almost hidden and special place, even a place out of time for generations of families, friends, guests, and visitors. This summer Bayside will celebrate its centennial with ceremonies, special events, performances, and parties. This centennial will be more than just a celebration. This will also be a summer in which the bonds and connections of friendship, respect, and civility will be renewed and strengthened. The folks that live in and around Waldo County know very much what a special place Bayside is and I would suggest to you this summer, as you're going for a ride up the Maine coast, when you get to Northport take five minutes and go visit Bayside. It is truly an amazing place and folks there are very proud of that community, as well they should be. Thank you, Mr. President.

PASSED.

Sent down for concurrence.

THE PRESIDENT PRO TEMPORE: The Chair is pleased to recognize in the rear of the Chamber the residents and property owners of the Northport Village Corporation and the Village of Bayside. Will they please rise and accept the greetings of the Senate.

ORDERS OF THE DAY

Unfinished Business

The following matters in the consideration of which the Senate
was engaged at the time of Adjournment had preference in the
Orders of the Day and continued with such preference until
disposed of as provided by Senate Rule 516.

The Chair laid before the Senate the following Tabled and Later
Assigned (4/9/15) matter:

Bill "An Act To Reduce Registration Fees and Excise Taxes for
For-hire Vehicles with Adaptive Equipment Enabling Access by
Persons with Disabilities"

H.P. 42 L.D. 48

Tabled - April 9, 2015, by Senator **MASON** of Androscoggin

Pending - **CONSIDERATION**

(In Senate, March 19, 2015, **PASSED TO BE ENACTED**, in
concurrence.)

(In House, April 2, 2015, Veto **OVERRIDDEN**.)

(In Senate, April 9, 2015, Veto Communication (H.C. 106) **READ**
and **ORDERED PLACED ON FILE**.)

THE PRESIDENT: The Chair recognizes the Senator from
Cumberland, Senator Alford.

Senator **ALFOND:** Thank you, Mr. President. Ladies and
gentlemen of the Senate, I first want to thank the Senate
leadership on the Republican side for yesterday allowing this to
be tabled. I thought it was a great decision because what we
learned yesterday in this Chamber was that this had not been
brought up in Appropriations in public. We were told yesterday
that they were going to bring it up yesterday and have votes.
Unfortunately, we have learned that the language portion of
unfinished 3 was not brought up yesterday and so I stand here
very, very disappointed that we can't work together. I think one of
the hallmarks of the Senate is something where we are working
together and we are figuring out our differences and we are
making sure that we put the people first. Right now we're not
putting the people first. This is a very important bill. This is
something that needs to be taken care of in Appropriations before
we take up this veto. It is very frustrating. I know that when I go
back to my district and people question me about civility up in the
State House, when they talk about people getting along, doing the
people's business, I'm usually so proud to say, "You know what?
The media usually has it almost entirely wrong because we do
work together, we do look at each other in the eyes and we say
'You know what? We can get stuff done together, even when

there is choppiness." Today, unfortunately, I'm standing up with a very different type of discussion because we aren't working together right now and this is a very simple request that we have asked, that this be put into the budget, to be voted into the budget, and then this be taken up. We're asking for one more day and, unfortunately, that is not being accepted. I think it's very unfortunate when we come to this place, where men and women work so hard together, and committees work so hard together, in this Chamber and we get to this place where there's division over something so small. One day, Mr. President. I ask, again, that we override this. It's unfortunate because tomorrow we probably could sustain the veto, but today I'm asking for you to override this because this is an important bill and we don't know what's going to happen once it gets down to the Appropriations Committee. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Penobscot, Senator Cushing.

Senator **CUSHING:** Thank you, Mr. President. Colleagues of the Senate, I rise today in support of the pending motion. I rise, Mr. President, because this is about how we respect each other. It's how we trust the word of the individuals on the committees to do their work and diligently make sure that what's brought before us is the best policy that they were able to come up with at that time. Mr. President, the Chief Executive is granted the right to veto certain legislation that comes before him. We may not always agree with him, as we may disagree here in this Body, in our committees, but if we maintain the civility, both here in this Chamber and when we speak out as members of this Chamber, in the media and in public it helps to foster that level of respect, Mr. President. When that doesn't happen, we don't trust the words and we don't trust the actions of our colleagues or the Chief Executive, who has fulfilled a commitment to include this in his budget. I think those individuals who labor very hard, who are working, Mr. President, to make sure that they thoughtfully prepare an Appropriations package to present to this Body and the other Chamber for consideration, they are doing that based upon a lot of trust, Mr. President. I think we have fully vetted this issue. I think that we have appropriately counted on the Chief Executive to do what he promised us he would do with this issue and I think it's now time, since we have been called upon from many sectors to clear up unfinished business, that we respect the will of some of those members in this Body and in this Legislature to move things forward. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from York, Senator Hill.

Senator **HILL:** Thank you, Mr. President. As the Body may well know, and may not know because they're new to the Body, I served on Appropriations the last four years; two of those as Lead Democrat in the Senate, proud to be there, and two as Senate Chair. I don't think this is about individuals. I don't think this is about the Executive Branch. I think this is about process, doing it properly. Everyone in here knows that there is a process we should go through, no matter who made what as a promise. This bill should stay on the table and when it is appropriate to take it off because Appropriations has, in fact, dealt with it then that's the time to move this off the table. This is a matter that has not been fully vetted, so I cannot agree with that statement. This is a matter that needs to yet be fully vetted and it will be best vetted in

Appropriations. Therefore, I move that this bill be committed to the Appropriations Committee.

Senator **HILL** of York moved the Bill and accompanying papers be **COMMITTED** to the Committee on **APPROPRIATIONS AND FINANCIAL AFFAIRS**.

On motion by Senator **MASON** of Androscoggin, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

Senator **CUSHING** of Penobscot rose to a **POINT OF ORDER** as to whether the motion to **COMMIT** was **PROPERLY BEFORE THE BODY**.

The Chair **RULED** the motion to **COMMIT OUT OF ORDER**.

Senate at Ease.

Senate called to order by the President.

THE PRESIDENT: The pending question before the Senate is the motion by the Senator from York, Senator Hill to Commit the Bill and accompanying papers to the Appropriations Committee. A Roll Call has been ordered. Is the Senate ready for the question?

(In Senate, April 29, 2015, **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "A" (H-43) AS AMENDED BY SENATE AMENDMENT "A" (S-60)** thereto, in **NON-CONCURRENCE**.)

(In House, May 5, 2015, **PASSED TO BE ENACTED**.)

On motion by Senator **ALFOND** of Cumberland, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

THE PRESIDENT: The Chair recognizes the Senator from Cumberland, Senator Millett.

Senator **MILLETT:** Thank you, Mr. President. Ladies and gentlemen of the Senate, I rise to speak to you about why this bill is so important and why I support the motion. This bill came out of our committee unanimously and was supported by the Director of the Midcoast Career and Technical Education High School, Maine STEM Collaborative, Maine Math and Science Alliance, Maine STEM Council, Maine Science Teachers Association, Texas Instruments, and a number of science teachers throughout the state of Maine. We received some excellent testimony that I would like to share with you. First, just to explain a little bit about the background in science standards, in 1993 and 1996 two non-governmental bodies issued sets of science standards; one, the American Association for the Advancement of Science and the other the National Academy of Sciences. Maine created its first set of learning results in science and technology in 1997, based heavily upon those two well researched and authoritative documents. In 2007, the Maine learning results in science and technology were revised, but without the background of similar documents. In 2011, the National Academy of Sciences issued its framework for K-12 science education as the result of recent research on learning and teaching science. This 18 member committee included nine members of the National Academy of Sciences or the National Academy of Engineering, including two Nobel Laureates and nine educational researchers and policy experts. This framework was used as the basis for the Next Generation Science Standards.

The Director of the Midcoast Technical and Career Education High School came before us and shared with us that before becoming an educator she had a full career as a marine engineer and had a Bachelor's degree from the U.S.M. in applied technology education and a Master's degree from Rochester Institute of Technology. This is her testimony, "As an educator and as an engineer, I highly support the immediate adoption of the Next Generation Science Standards. Students need to have multiple opportunities and pathways to obtain proficiency science and other STEM learning throughout their K-12 educational experience. There needs to be rigorous and relevant standards that educators use to determine how and what that learning should include. This science literacy needs to start in the

youngest grades with content and activities that engage students in the how and why and the wonders of scientific inquiry. In middle school, science studies need to embrace many areas of exploration that keep the study of science relevant and engaging. In high school, students need multiple opportunities and pathways to explore and demonstrate their understanding of theoretical and applied science. These options need to include not just the traditional classroom based biology, chemistry, and physics, but a variety of choices in applied science from free engineering and computer science to medical science at CTE schools. Many students learn best through application and hands-on activities. We need to ensure that these applied science programs are available, rigorous, and aligned with a robust set of national standards so Maine students can be competitive in their futures. Failing to enact these standards and support them in our schools by providing multiple pathways to gain proficiency in science and technology is a disservice to Maine students and economic prosperity."

The Maine Science Teachers Association also supported and endorsed the adoption and implementation of the Next Generation Science Standards. It's their belief that they have been carefully written, based on thorough research. Educators at all levels participated in the writing and reviewing of the standards. As one of the lead states to review the standards, Maine had high participation by educators and professionals in the STEM fields. We are invested in these standards.

Finally, there have been some programs implemented in the state of Maine and recent analysis of the results reflect that these students get a steady diet of hands-on activities, more opportunities to take responsibility for their science learning, for collaboration with other students, and for solving real life problems; all of which help them develop learning skills that carry through to other subjects. It was testimony and input of these individuals and organizations that led the committee to unanimously support this legislation. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Hancock, Senator Langley.

Senator **LANGLEY:** Thank you, Mr. President. Men and women of the Senate, I, too, rise to support the pending motion of Ought to Pass to be Enacted. My good Senate colleague from Cumberland is absolutely right, that was the testimony. Last time it was in the Senate we put an amendment on it to extend the implementation date out. That was in respect for the Department's concern over capacity, being able to fully implement these in a thoughtful way and have the time to do that. We did and we passed that and it came back to us from the House with that amendment on it. We have respected their opinion about capacity and being able to do that and have set them out there in a timely frame. I'd also had the opportunity to meet with the Chair of the State Board of Education prior to that amendment going through and that they were concerned that they hadn't had time to look at those standards, but it's apparent now, with the amendment on it, that they'll have plenty of time to weigh in on it before they would actually implement it. I think we've covered all of our bases. Thank you, Mr. President.

THE PRESIDENT: The pending question before the Senate is Enactment, in concurrence. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

(In Senate, April 2, 2015, Veto Communication (S.C. 176) **READ** and **ORDERED PLACED ON FILE.**)

THE PRESIDENT: The Chair recognizes the Senator from Cumberland, Senator Alfond.

Senator **ALFOND:** Thank you, Mr. President. Ladies and gentlemen of the Senate, I'm going to be much shorter, but I would reiterate what the good Senator from York said, this is not the appropriate process. This is not about trust or not having trust. This is not about just moving things along. We are a separate and equal branch of government. There is nothing in the Senate Rules that says that we have to take up any vetoes in any sort of timeframe. We have plenty of time to take up this veto after the Appropriations Committee does their work. We should be working on this together. Today is not a good day for the State Senate. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Penobscot, Senator Gratwick.

Senator **GRATWICK:** Thank you very much, Mr. President. Ladies and gentlemen of the Senate, I rose yesterday to speak on this and I just have a very few extra words again today. I continue to be perplexed by the course of this particular legislation, which is, indeed, very good legislation. When I came here I thought this is exactly what we want to be doing. We're trying to get legislation that really has arisen from local groups; brings them all working together and it saves money. Hard to find groups that are any better than libraries at doing this. Again, it would seem like the process is very important. I must admit, I trust my colleagues in this Body completely. On the other hand, I learned a long time ago, from President Reagan when he was dealing with the Russians over all the armament discussions, trust but verify. I think that's where we're at right now and I think that I'd much prefer that this be dealt with after it's gone through the proper procedure in Appropriations. Thank you, Mr. President.

THE PRESIDENT: The Chair recognizes the Senator from Androscoggin, Senator Mason.

Senator **MASON:** Thank you, Mr. President. Ladies and gentlemen of the Senate, I just rise to support the Governor's initiative on this bill. I think I have every confidence in the members of our Appropriations Committee, both here and in the other Body. I believe that this element of non-profit collaboratives of libraries and this sales tax exemption will be upheld through the Appropriations process and I think that I would ask the Senate to support sustaining the Governor's veto of this agenda item. Thank you, Mr. President.

The President laid before the Senate the following: "Shall this Bill become law notwithstanding the objections of the Governor? In accordance with Article IV, Part Third, Section 2, of the Constitution, the vote will be taken by the Yeas and Nays. A vote of yes will be in favor of the Bill. A vote of no will be in favor of sustaining the veto of the Governor."

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

ROLL CALL (#69)

15 Senators having voted in the affirmative and 20 Senators having voted in the negative, and 15 being less than two-thirds of the members present and voting, it was the vote of the Senate that the veto of the Governor be **SUSTAINED**.

The Secretary has so informed the Speaker of the House of Representatives.

Out of order and under suspension of the Rules, the Senate considered the following:
